French Troops Control The Ruhr; Germans Declare General Strike

(By United Press)

Anxiously, but calmly the world was adjusting itself today to the new conditions in Europe wherein France has taken physical possession through her armies of the rich Ruhr district.

One of the greatest coal producing and manufacturing areas of Europe, has been occupied by thousands of troops without the firing of a shot or the loss of a single French or German life to date.

Germany meantime has served notice that she regards the treaty of Versailles as violated and that such reparations payments as she has been making will cease while French and Belgian troops are in the Ruhr.

All that France gets therefore she must take herself, thus opening the way for further complications.

Great Britain has decided that British troops at Cologne shall remain at their post, established by the Versailles treaty.

Meantime the Transport St. Michel will sail from New York today to bring home the American troops occupying Coblenz.

French engineers are on the ground in the Ruhr preparing to direct the mining of coal and production of other commodities which France will seize as productive guarantees in lieu of reparation payments.

Monday the French, Belgian and Italian members of the reparation commission will meet and endeavor to agree upon a program that will serve as a response to Germany's request for a moratorium.

Though the United States and Great Britain have openly expressed disapproval of the action of Premier Poincare in seizing the Ruhr, the overwhelming vote of confidence given the French premier by the chamber of deputies leaves no doubt that he has complete support at home.

Following a meeting of French and German communists in Essen, Paris police announced discovery of a plot of "red" uprising. Many arrests have been made in Paris.

Order Strike As Protest Of Seizure

ESSEN, January 12.—(By the Associated Press)—All the factories will close next Monday morning from 11 to 11:15 o'clock in protest against the occupation. The committee directing the demonstration represents all political parties. Railway traffic will stop for ten minutes at the same hour.

NO TROUBLE DURING OCCUPATION

Duesseldorf, January 12.—(By the Associated Press)—General De Gaulle, commander in charge of the movement of the military into the extended zone of occupation in the Ruhr, declared today he considered his mission to have been successfully carried out.

"I had instructions to protect the economic mission in its entrance to Essen," he said, "and this has been done. My further duties consist of insuring the security of the members of the mission while they are at work, which I have taken measures to do."

"No trouble has occurred thus far, and I do not expect any unless the Berlin government should give inflammatory instructions to the Ruhr authorities, which I consider would not be to the best interests of Berlin to do."

"Our relations with the German authorities are cordial."

The French high commission in the Rhineland has invited the managers of all the factories in the newly occupied zone to meet with it.

COAL SYNDICATE DEFENDS SELF

LONDON, January 12.—(By the Associated Press)—The Westphalian coal syndicate is now established at Hamburg, according to one of the directors who was interviewed by the Hamburg correspondent of the Times.

The official contended the withdrawal of the syndicate from Essen was entirely regular and justifiable inasmuch as the company was a private organization possessing full liberty of action. He said that the special department which dealt with the reparations' coal account, remained in the Ruhr to insure continuance of future deliveries.

French Notified Of Americans' Departure

MAYENCE, January 12.—(By the Associated Press)—Major Henry T. Allen, commander of the American forces occupation informed French general headquarters here today that the United States is withdrawing its troops from the Coblenz bridgehead.

The troops, an official communication says, will leave January 21 for Bremen, whence they will sail for the United States. The officers and their families will travel on commercial liners.

The French general staff, adds the statement, is taking the measures necessary to meet the situation created by the departure of the Americans.

ESSEN, January 12.—(By the Associated Press)—The 40,000 employees of the Krupp plant here, went to work this morning as usual, according to information officially supplied to the French economic mission in Essen by German authorities. Strikes are reported in Bochum, but the percentage of strikers is small, it is declared.

Argue Over Shot Gun; Woman Shot

CLEVELAND, O., January 12.—(By the Associated Press)—Mrs. Anna Hanna, 31, was fatally wounded early today when a shotgun, said to be the subject of an altercation between the woman and her husband, John Hanna, was discharged, while the two were arguing over its possession. Police did not hold the husband, who said the killing was accidental. Hanna told the police his wife objected to the gun in the kitchen and asked him to put it away. Becoming impatient, Hanna said, his wife grabbed the gun and when he tried to take it from her, it exploded. Mrs. Hanna was shot through the back.

French Get Award From U. S. Railways

WASHINGTON, January 12.—(By the Associated Press)—The French republic was given an award of reparations against the United States Railway administration today by the interstate commerce commission amounting to \$71,402. The director general of railroads was ordered to pay that sum to the French agents on or before January 20, on the ground that illegal demurrage and storage charges were assessed against French shipments of munitions of war at Wilmington, Del., during 1919. The French agents have a series of complaints against the railroad administration arising out of similar war-time transactions in which it is alleged that they were required to pay over-charges.

NEW YORK, January 12.—(By the Associated Press)—The motive for the apparent suicide of Rev. Dr. Percy Gordon, former assistant rector of St. Bartholomew Episcopal Church, whose body was found yesterday in a bath tub in his apartment in a hotel, remained unsolved today. There was a bullet wound in his right temple and a revolver with one empty chamber lay beneath his right hand. The contents of two letters, found near the body were not made public. One was addressed to Dr. Leighton Parks, rector of St. Bartholomew, and the other to Gordon's son, George of the American embassy in Paris.

TREASURY OFFICIALS NAMED BY HARDING

WASHINGTON, January 12.—(By the Associated Press)—President Harding cleared the slate of important pending treasury appointments today by nominating D. R. Crissinger, of Marion, Ohio, now controller of the currency, to be governor of the Federal Reserve Board; James G. McNary, of Las Vegas, N. M., to succeed Mr. Crissinger as comptroller and Milo D. Campbell, of Coldwater, Mich., to be the "dirt farmer" reserve board member.

Mr. Crissinger succeeds W. P. G. Harding, whose term as governor expired some time ago and who soon will become head of the Boston Reserve Bank. The new board governor has been controller since the beginning of the Harding administration who is an old friend and neighbor of the president and was at one time a Democratic candidate for congress, although he supported the Republican national ticket in 1920.

Both Mr. McNary and Mr. Campbell are Republicans. The former was said at the White House to have extensive business interests in the southwest.

Mr. Campbell was nominated under the provision recently made by congress for a member of the board representing farmers. He has been a practical and working farmer all his life. It was said at the White House and personally manages two farms on the outskirts of Coldwater, which are widely known as models of agricultural science.

Ships of Many Nations

The visiting flotilla flies the flags of many nations and the crews are of all races. The ships are loaded to the gunwales with liquor.

"You can get anything you want. Cheap, too," said one captain.

Thousands of cases moved out of the town all night by motor trucks and passenger cars. The last left at seven o'clock this morning in five big motor vans, 4,000 cases.

The power boats taken last night were the Margaret B., a cabin cruiser, the Evelyn, Samskiff, the Nanna and Ida, a fishing power boat hailing from Camden, Me., and an unnamed launch newly built and on her first bootlegging jaunt.

Huge Rum Fleet Off East Coast; Runners Busy

HIGHLANDS, N. J., January 12.—(By the Associated Press)—The great rum fleet of 22 vessels, which bobbed up yesterday off Sandy Hook, while the New York dry naval squadron was being re-organized was still standing off the Ambrose channel lightship today ready for business as usual.

While prohibition forces were taking to New York four small boats captured last night while attempting to land liquor from the mother ships, the rest of the welcoming fleet of 50 were racing back and forth between the rum carriers and shore.

Although observers ashore estimated that thousands of cases had been landed last night, the rum fleet presumably hailing from the Bahamas, had a vast stock still to dispose of to bidders putting out from this resort and other places along the coast. Liquor landed last night was reported to have been sent by motor truck to New York, Philadelphia, Washington and other cities.

Whiskey, gin, champagne and wine all were offered for sale and keen competition has developed among the skippers of the rum ships.

As the bootlegger runs alongside in his power boat, he scans signs hung over the sides of the mother ships and decides from which he will purchase. The signs inform the bottle fishermen that Scotch whiskey of such and such a brand may be had at \$35 to \$50 per case. Rye was quoted at \$35. Champagne was higher. The sea began to take on the appearance of a bargain counter.

Seek Change In Packers Control

WASHINGTON, January 12.—(By the Associated Press)—Important changes in the tentative plans of the administration of the packer control act are understood to have been urged by representatives of the big five packers of Chicago at a conference today with officials of the department of agriculture.

Ranking officials of some of the Chicago companies were present at the conference and although no one would reveal exactly what was said, there were indications that some of the steps planned by Secretary Wallace as a part of the administration of the law had met with determined opposition.

Under the law the stockyard's administration, which is a part of the agriculture department is authorized to compel the completing of certain detailed accounts by the packing concerns and it was that feature of the enforcement plans which is understood to have come under discussion. Just what the department proposes to do to carry out the accounts provisions never have been announced, but it was shown that the packer representatives were convinced that the tentative enforcement plans overstepped the intent of congress.

Force Of Lithuanian Irregulars Is Advancing, Report

PARIS, January 12.—(By the Associated Press)—The French and British governments are preparing to send warships to Memel, the former East Prussian territory on the Baltic, internationalized by the treaty of Versailles, with the purpose of maintaining order in view of the invasion by the Lithuanians.

Dispatches received by the French foreign office today indicate that the Lithuanian irregulars who crossed the frontier earlier in the week have reached the outskirts of the town of Memel and exchanged shots with the German guard.

The great lumber port at Memel, which has been under temporary authority of a directorate composed of Germans since the signing of the treaty of Versailles, has no other military protection than a couple of hundred French soldiers, part of a battalion sent there during the peace negotiations of 1919.

While the Germans predominate in the town the Lithuanians are in far greater number in the immediate outlying districts and there are fears in French official circles that the irregulars may overwhelm the local force and create a difficult situation.

The French and the British have made a diplomatic protest to the Lithuanian government at Kovno. The reply was that every effort was made to prevent the irregulars from crossing the frontier.

Latest reports however, indicate that a rather strong force has not only succeeded in crossing the frontier, but has reached the town. The movement is regarded here as the result of a well laid plan, the object of which, according to the French, is to balance the Polish occupation of Vilna by taking possession of Memel. Final disposal of Memel has been under discussion by the allied council of ambassadors which thus far has been unable to come to a decision.

French And Germans May Fight Side By Side

LONDON, January 12.—(By the Associated Press)—The curious spectacle of the French and the Germans fighting a common enemy on the eastern shores of the Baltic, is expected from today's developments in the top-heavy European situation as a result of the Lithuanian advance on Memel. The Memel police, composed for the most part of Germans, and the French troops, entrenched in the outskirts of the city, will resist the Lithuanian raiders, according to advices received here.

STATE OF SIEGE DECLARED

COPENHAGEN, January 12.—(By the Associated Press)—An Exchange Telegraph dispatch from Memel reports that the interallied high commissioner, has proclaimed Memel in a state of siege. The newspaper Memeler Dampfboot, says a proclamation signed by members of the committee for saving little Lithuania, announces that M. Simonaitis, said to be a former Lithuanian minister, has been created president of the Memel territory.

BRITISH NOT TO HEED PROTEST

LONDON, January 12.—(By the Associated Press)—The British government will give no recognition to the German protest against the French advance into the Ruhr, which the Berlin government addressed to the allies last night and in no way will the protest affect British action or policy, it was authoritatively stated this afternoon.

Whenever it becomes necessary, the British representatives on the various interallied commissions will absent themselves in order to demonstrate the British disassociation with the present French action on the Ruhr.

Otherwise it was decided, Great Britain would continue to act wholeheartedly with the allies.

BRING THE KIDDIES TO OUR DAILY MATINEES

"WITHIN THE LAW" AT SUN MONDAY

The Jack Ball Stock Co. is scoring quite as big a success with the lingerie farce comedy "Up in Mabel's Room" as in their previous presentation of the play. Judging from the large houses witnessing the production again, it is just as popular as ever. Another bargain matinee is given tomorrow at 2:30. Owing to the manuscript and parts being lost in express, the production of "Within The Law" had to be postponed to Monday, Tuesday and Wednesday. Hundreds of seats had been sold in advance for the last three days of this week and patrons holding reserved seats for those performances can exchange them for any of the four performances the first half of next week. "Within The Law" is a play which every one seems to want to see, as the advance sale for this attraction eclipses anything heretofore advertised as a coming attraction. There are still good seats available for all night performances, but owing to the small capacity at the Sun, the management urges everyone to get their seats early.

At first the Spaniard had conceived that she was meeting the victorious fleet of Don Miguel, returning from the destruction of the pirates. When at comparatively close quarters the pennon of St. George, soared to the Arabella's masthead to disillusion her, the Santo Nino chose the better part of valor, and struck her flag.

Captain Blood ordered her crew to take to the boats, and land themselves at Oruba or wherever else they pleased.

Dismissing the Captain, who went over the side of the "Santo Nino," Captain Blood proceeded to investigate the value of this further prize. When her hatches were removed, a human cargo was disclosed in her hold.

"Slaves," said Wolverstone, and persisted in that belief, cursing crawled up out of the dark bowels of the ship, and stood blinking in the sunlight.

And those that crawled out after him—the remnants of his crew—cursed him horribly for his pusillanimity which had brought them into the ignominy of owing their deliverance to those whom they had deserted as lost beyond hope.

Their sloop had encountered and had been sunk three days ago by the Santo Nino.

CHAPTER XVIII

The Millagross

THE affair at Maracaybo is to be considered as Captain Blood's buccaneering masterpiece.

The fame which he had enjoyed before this, great as it already was, was dwarfed into insignificance by the fame that followed.

In Tortuga, during the months he spent there refitting the three ships he had captured from the fleet that had gone out to destroy him, he found himself almost an object of worship in the eyes of the wild Brethren of the Coast. When next he sailed away it was with a fleet of five fine ships in which went something over a thousand men. The three captured Spanish vessels he had retained with a certain scholarly humor the Clotho, Lachesis, and Atropos.

In Europe the news of this fleet, following upon the news of the Spanish Admiral's defeat at Maracaybo, produced something of a sensation.

On the 15th September of the year 1688—a memorable year in the annals of England—three ships were afloat upon the Caribbean, which in their coming conjunction were to work out the fortunes of several persons.

The first of these was Captain Blood's flagship the Arabella, which had been separated from the buccaneer fleet in a hurricane of the Lesser Antilles.

The second ship was the great Spanish galleon, the Millagross, which, accompanied by the smaller frigate Hildaga, lurked off the Caymans. Aboard the Millagross sailed the vindictive Don Miguel.

The third and last of these ships with which we are at present concerned was an English man-of-war, which was at anchor in the French port of St. Nicholas. She was on her way from Plymouth to Jamaica, and carried on board a very distinguished passenger in the person of Lord Julian Wade, who came charged with a mission of some consequence and delicacy.

My Lord Sunderland, the Secretary of State, had appointed a strong man to the deputy-governorship of Jamaica. This strong man was that Colonel Bishop who for some years now had been the most influential politician in Barbados.

The third ship—the vessel bearing that ingenious, tolerably accomplished, mildly dissolute, entirely elegant, and a good deal of a good natured man, his last port of call before Jamaica. It was understood that as a preliminary Lord Julian should report himself to the Deputy-Governor at Port Royal, whence at need he might have himself conveyed to Tortuga. Now it happened that the Deputy-Governor's niece, had come to St. Nicholas some months earlier on a visit to some relatives, and so that she might escape the insufferable heat of Jamaica in that season. The time for her return being now at hand, a passage was sought for her aboard the Royal Mary, and in view of her uncle's rank and position promptly accorded. Lord Julian hailed her advent with satisfaction.

UNDER THE COVER OF THE DARKNESS CAPTAIN BLOOD'S FLEET WEIGHED ANCHOR QUIETLY.

Miss Bishop was a young woman and a lady. On his side, with his title and position he bore about him the atmosphere of the great world that was little more than a name to her. It is not therefore wonderful that they should have been attracted to each other before the Royal Mary was warped out of St. Nicholas.

"I wonder now," he said, as they were sauntering on the poop, "if you ever saw this fellow Blood, who was at one time on your uncle's plantations as a slave."

"I saw him often. I knew him very well."

"And what manner of man did you find him?"

"In those days I esteemed him for an unfortunate gentleman."

"You were acquainted with his story?"

"He told it me. That is why I esteemed him—for the calm fortitude with which he bore adversity. His lordship laughed a little. "He has grown rich, I hear. His future father-in-law, M. d'Ogeron, has seen to that."

"His future father-in-law?" said she, and stared at him round-eyed, with parted lips. Then added: "M. d'Ogeron? The Governor of Tortuga?"

"The same. You see the fellow's well protected. And as for the girl, I'm told she's a wild piece, fit mate for such a man as Blood. He killed a man to win her."

"He killed a man for her, do you say? There was horror now in her voice."

"Yes—a French buccaneer named Levasseur. He was the girl's lover and Blood's associate on a venture. Blood coveted the girl, and killed Levasseur to win her."

"Who told you?"

"A man who sailed with them, a Frenchman named Caluso, whom I found in a waterside tavern in St. Nicholas."

She smiled a little crooked smile. "Such a man is best forgotten."

Last Ladies' Musical Artists' Recital Of Year Will Be Given Next Friday Evening

The third and last of the Ladies' Musical artists' series recitals for this year will be given next Friday evening, January 19, by Maurice Dumesnil, the eminent French pianist and Zera Poppe, the celebrated cellist. These artists come to us highly recommended, and our own Mr. Ende having heard them three times, assures us that we will in no wise be disappointed.

A few press notices may be interesting:

The Critic of the New York Tribune says:

Miss Poppe is an artist of attainments, a sincere musician, the possessor of an excellent tone and an admirable technique. As a composer also Miss Poppe has added greatly to the success of her program, the song of Pan and Volga may be mentioned as two widely different examples of her original writing.

The New York Tribune has this to say of Dumesnil:

He proved himself an excellent musician, and a pianist straight forward and sincere in all he does.

The Evening Mail says: He stands out as a player of extraordinary powers.

Thin? Run-down? Sure Way to Get Right Weight

Increase Your Red-Blood-Cells. That's the Sure Way! S. S. S. Builds Blood-Cells; This Means Strength!

Do you know why insurance companies refuse to insure a great many men because they are underweight? Simply because to be underweight

often proves low fighting-power in the body. It often means you are minus nerve-power, minus red-cells in your blood, minus health, minus energy, minus vitality. It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus. That's why S. S. S., since 1858, has meant to thousands of underweight men and women, plus in their strength.

Hollow cheeks fill out. You stop being a cadaverous-looking. You inspire confidence. Your body fills to the point of power. Your flesh becomes firmer, the age-lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body. More red-blood-cells! S. S. S. will build them. Ladies and gentlemen, a peppy, buoyant face doesn't make you look very important or pretty, does it? Take S. S. S. It contains only pure vegetable medicinal ingredients. S. S. S. is sold at all drug stores in two sizes. The larger size bottle is the more economical.

Some slight damage was sustained by Blood's fleet. But by the time the Spaniards had resolved their confusion into some order of dangerous offense, that fleet was through the narrows and standing out to sea.

Thus Don Miguel de Esposado left to chew the bitter end of a lost opportunity.

Off the coast of Oruba, at the mouth of the Gulf of Venezuela, Captain Blood's fleet came upon the belated Santo Nino, speeding under full sail to reinforce Don Miguel at Maracaybo.

JESUS TEACHES HUMILITY, LUKE

REV. JOSEPH H. A. BRETZ

Sociability, utility, humility and philanthropy.

Jesus shows the sociable side of his nature frequently. He seemed never to have declined an invitation to a social event. He graced the marriage feast at Cana with His presence. He ate in the humble, fever-stricken fisher cottage at Capernaum. He descended to partake with sinners. He feasted with Zachaeus the rich publican. He failed not to accept the entertainment of the Pharisee and no doubt enjoyed his sumptuous repast.

As the leader of Christianity He leads in the cultivation of the social nature, many of our extremely religious folks to the contrary, however. It is by our social contacts we gain and maintain an influence over our friends and others in best measure. This was one of Jesus' best methods

of getting the personal touch with those He desired to help.

A member of Spurgeon's church looked up a young man in London every week and induced him to go to church, then took him home for dinner and talked to him about becoming a Christian. He seldom failed to gain his man—more Christian sociability would mean greater success to the cause.

Using the opportunity.—On every such occasion Jesus seemed to have made the best possible use of His time. Here He healed a sick man and showed those having criticized His having helped the afflicted on the Sabbath. There is no law against helping the needy or afflicted at any time or in any place possible. Jesus' life was ever helpful and He is our example. At this time also Jesus found opportunity of instructing those sitting with Him at the meal.

The way some of those fellows scrambled for the more honorable places was rather repulsive to the refined mind of the Master. It was like the scrambling pigs at meal time perhaps. Gentility was altogether lacking, courtesy nowhere to be found. Every fellow for himself, who cares who gets left was the manifestation of their actions. The "most perfect gentleman of all history" gave them a lesson in table manners.

"When thou art hidden" do not attempt to be master of ceremonies. The man humble in action is the man great in reality. God has often chosen the humblest of men to do the greatest service, as Moses who felt unable to command the Israelites in the exodus from Egypt, Gideon who hesitated to lead his people in a rebellion against their oppressors, Solomon who could not execute his kingly office without God-given wisdom.

Humility is a jewel beyond the price of rubies and where you should expect it are you often least likely to find it. Among the lowliest professors of religion, who all too frequently strut about with a chip on their shoulder like these high brow

MAGNESIA BEST FOR YOUR INDIGESTION

Warns Against Doping Stomach With Artificial Digestants

Most people who suffer, either occasionally or chronically from gas, sourness and indigestion, have now discontinued (disagreeable) diets, pasty foods and the use of harmful drugs, stomach tonics, medicines and artificial digestants, and instead, following the advice so often given in these columns, take a teaspoonful or two of tablets of Bisulphate of Magnesia in a little water after meals with the result that their stomach no longer troubles them; they are able to eat as they please and they enjoy much better health. Those who use Bisulphate of Magnesia never dread the approach of meal time because they know this wonderful antacid and food corrective, which can be obtained from any good drug store, will instantly neutralize the stomach acidity, sweeten the stomach, prevent food fermentation, and without the slightest pain or discomfort, try this plan yourself, but be certain to get pure Bisulphate of Magnesia especially prepared for stomach use.—Advertisement.

January Reduction Sale

Kline's
Opposite Columbia

Sale of Suits

Sale of Coats

THIS ANNOUNCEMENT should be sufficient to cause the prompt disposal of practically all the Winter stocks in the establishment.

It is difficult to outline in ready and certain English the possibilities offered, but the items given here should create the right impression.

THE ELEMENT OF UNUSUAL OPPORTUNITY was never more happily presented than in this JANUARY REDUCTION SALE—most important of all our special selling agents, which emphasizes BETTER VALUES, GREATER SAVINGS, AND WIDER RANGE OF CHOICE than we have ever offered at this time of a season. REDUCTIONS APPLY WITHOUT RESERVE ON ALL STOCKS IN THE STORE without a single exception.

EVERY DEPARTMENT CONTRIBUTES its quota to this Event, and the VALUES ARE EXCEPTIONAL—in many cases prices are lower than actual cost, and as ever KLINE'S SUPERIOR QUALITY and workmanship are evident in every selection.

THE KLINE CLEARANCE SALES developed into an event of far-reaching importance, an event long looked forward to by economically inclined women who recognize it as an opportunity to purchase APPAREL OF ACCEPTED STYLE AND QUALITY AT VERY DECIDED SAVINGS.

THE FACT ALONE, that this store always carries the newest the market affords, is enough to direct your immediate attention. Many are well familiar with our goods and reasonable prices. To those that are not we extend a welcome invitation whether interested to buy or not, to come and be convinced of the GENEROUS REDUCTIONS we have made.

REDUCTIONS SO DRASTIC—So Radical, as to establish a New Precedent in VALUE-GIVING.

THE BEAUTY ALSO OF A KLINE SALE is that while the prices are materially reduced, the styles are just as desirable as they were at their original prices, for KLINE'S ONLY CONTAIN FRESH, NEW STYLES, at all times.

1/2 off

If you have been wanting a SUIT, now is the time to buy it, when you have the double advantage of decisive reductions and a variety from which to select.

Tailored Suits in Twills, Tricotine and Mannish Mixtures, dressier suits in rich Wintery fabrics trimmed with fur—even three-piece suits combining frock and jacket of fine materials, have been sharply cut in price for this event and priced as low as ONE HALF OFF, and even LESS.

Among them, too, are the short coat effects which are suitable for Spring wear and you owe it to yourself to at least come and see them. There is no substitute for coming to see.

1/2 off

IN THIS SALE OF COATS, we are offering better values than ever. That's just what they are.

Better coats at lower prices than you've met with this season before. Some of them represent the cream of our own high-grade stocks. Others have been purchased especially to make this sale an event of Surpassing Value.

All are of excellent favored materials, of course, and splendidly tailored—otherwise KLINE'S would not have them.

You'll be delighted with the unusual quality of the furs—Beaver, Squirrel, Caracul, Kit Fox and Wolf.

There are all sizes, women's and misses', every possible style and PRICED AS LOW AS ONE-HALF OFF.

Neck And Neck

The Bertha Ruffle and the Jenny collar, run a race for feminine favor.

They are both as dainty as can be and here in a variety of designs.

Some are of thread lace, others of batiste edged with fillet.

All are without a single exception at this particular time at 20 per cent off.

You'll do well to put a supply of Neckwear in today.

Feet First

May be reversing the usual order of things, but sheer hosiery in shades of tau and gray to match one's costume is to be of such importance this season, that it deserves special mention. The best makes are represented in our selection, and complete in every way.

We need not undersell the Hosiery stock, not any more than we have other lines.

But we want to make this sale real interesting and they too are now selling at 20 per cent off.

A Pair In Hand

Is worth a great deal of distinction, especially when it is French Kid Gloves that are in question.

Some in gauntlet styles have fancy stitched and appliqued cuffs, in all colors, all sizes.

The Glove Department too comes to the front and contributes its share of value-giving in no small way.

You now pay but eighty per cent of its real worth, or in other words, LESS 20 PER CENT.

Your old pair needs to be replaced perhaps. Are you still going to wait?

"Do Tell"

You almost feel obliged to ask this fascinating maid, "Wherever did you get that pretty lace trimmed chemise you're wearing?" And you'll be surprised when she answers "At the LINGERIE SALES at KLINE'S where there are lots of them selling at TWENTY PER CENT OFF."

There's no telling in a single column what you can get in the way of dainty undermuslins for next to nothing, one might almost say.

And it is really your duty to investigate.

French Seam

You are sure to like this French Seam Hosiery.

It is being worn by the best dressed women.

This flat seam reinforces what is usually the weakest point in Hosiery and besides that it is different looking and good looking too.

IN BLACK SILK of excellent quality it is a special value at \$2.80 the pair now since all Hosiery are priced at 20 per cent off.

This is another demonstration that KLINE'S does not exclude a single item if a GENERAL SALE is advertised.

Falling Into It

May not be quite the proper word when it's Step-in sets we're talking about, but, however you put it, it's a made-to-order bargain to find these Sets priced at TWENTY PER CENT LESS the original cost.

Especially at a time when cotton and silk are rising rapidly in price, and Spring soon to be here when you'll most assuredly want a new supply.

We are really to be criticised to sacrifice stocks of this calibre, but KLINE'S as usual will do anything to create GOOD WILL and this is no exception.

Pay Your Taxes By Wednesday

County Treasurer Henry B. Ruel in a notice issued Friday extended the time limit for the payment of December taxes until next Wednesday afternoon, Jan. 17, when the collection will be finally terminated and the books

turned over to Auditor Roy Cornburn for checking up. The extension of three days was granted in order to give all persons still owing taxes an opportunity to pay up and escape the added penalty under the law.

JOHNSON MEETS BRENNAN TONIGHT

NEW YORK, Jan. 12.—Floyd Johnson, promising young Iowa heavyweight, will stake his aspirations for championship honors tonight in a 15-round contest with Bill Brennan, Chicago veteran. The bout is the first of a series among heavyweights, contenders planned as a means of selecting a "logical opponent" for Jack Dempsey, the title-holder.

Victory for Johnson will place him in the front rank of challenging elig-

ibles, who already include Jess Willard, Harry Wills and Tom Gibbons. The Iowa has developed rapidly within the past few months and included Bob Martin, former A. E. P. champion, among his victims, but he will meet an experienced, hard-hitting ring general in Brennan. The latter twice has fought Dempsey in recent years and was knocked out both times. In 1915 in six rounds and in 1920 in 12 rounds.

JOINT INSTALLATION TONIGHT

Final plans for the joint installation to be held by Delta Camp, Royal Neighbors of America and Portsmouth Camp Modern Woodmen of America tonight in Ben Hur hall,

were made last night by Delta Camp members who are to serve a banquet following the installation. One candidate, Mrs. Mona Pennington, was given degree work, and one

applicant, Ethel Baker, was favorably balloted upon. Mrs. Louise Wentz was selected as installing officer and Mrs. H. L. LeFevre as ceremonial master for tonight's meeting.

After the installation and banquet there will be a dance, with music by Van Wert's Society Entertainers.

Feeling Between Mer Rouge And Bastrop Made Armed Camps Out Of The Towns

BASTROP, LA., January 12.—(By the Associated Press)—State authorities holding an open investigation into the kidnapping and slaying of Watt Daniel and T. F. Richards in Morehouse Parish had before them today the testimony of nearly two score witnesses dealing with disputes between the people of the two principal towns, Bastrop and Mer Rouge, dating back for years and starting, according to several, with the drawing of a line between factions favoring and opposing the Ku Klux Klan.

Robert L. Dade, mayor of Mer Rouge, told the investigators at yesterday's session of the open hearing that "before the Klan came, everybody in Mer Rouge were like brothers, but now there is a strained feeling; under the regime of the Klan there has arisen a condition in this parish that is intolerable."

Rouge planned a reprisal raid on Bastrop. Citizens of Bastrop organized and armed themselves. Citizens of Mer Rouge did likewise.

Then came an alleged attempt to kill Dr. McKoin. Many citizens of Mer Rouge, according to its present order, do not believe any attempt was made to assassinate the physician, while citizens of Bastrop firmly believe such an attempt was carried out.

Kidnapped In Broad Daylight
Several men were accused of the plot, one being Richards. On August 17, he was kidnapped in daylight on the main street of Bastrop, and carried to the woods by a party of black hooded men and questioned. Witnesses have testified that Sheriff Carpenter of this parish, was standing about 100 feet away when the kidnapping occurred.

Motive Not Revealed
One week later, Richards, Watt Daniel, W. C. Andrews, and Watt's father, J. L. Daniel, were seized by hooded men on a crowded highway, taken into the woods and flogged. "Tot" Davenport, also seized, was not molested. Davenport, Andrews and J. L. Daniel were released, but Watt Daniel and Richards were carried off and tortured to death.

Turks Seek To Reopen Questions Powers Thought Already Had Been Settled

LAUSANNE, January 12.—(By the Associated Press)—The return from Angora of Hassan Bey, was followed today by rejection on the part of the Turkish delegation of the allied project that the tax exemption hitherto granted foreign religious, scholastic and charitable institutions in Turkey should continue for five years after which they should be placed on the same footing as similar Turkish institutions. The Turks declared the equality of treatment must begin now.

Furthermore they attempted to reopen other questions which had been considered as already settled by the conference. There is considerable uneasiness in allied circles over the general problem of capitulations, especially as regards the special courts for foreigners.

It is reported Hassan Bey brought instructions from Angora that the Turkish delegation should no longer discuss this question on the ground that the Turkish government has already abolished all capitulations.

New Boston Teams Will Play Ironton

Two games of basketball are scheduled for the New Boston high school gym Saturday evening when the New Boston quintets meet the Ironton high school fires. The first game between the girls will begin at 7:30 sharp. New Boston means to gain revenge for the defeat suffered at Ironton several weeks ago.

Killed By Explosion
CINCINNATI—An explosion of gas coming from a water heater, caused the death of Mrs. Jennie Cohn, 25.

Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Miss Wise—I read an article in your column where you solved a problem for a school boy about the fish. It run like this: "The head is four feet long, the tail as long as the head and one-half the length of the body, the body as long as the head and tail. I have a fish to measure and unless you go into details and give length of tail or body I won't know how long he is."

MR. FISH.
Some fish have longer tails and bodies than others, so I can't tell you the length of your fish. However, if you will scratch your head, and adjust your thinking cap you can figure it out for yourself. It's so easy when you know how. This is one of a variety of test examples which have been selected especially to test the knowledge of the student, and I don't think I would be doing the right thing by telling you and many other little readers all about it, when you are supposed to figure it out for yourself.

Dear Dolly—I am 18 years of age and have been going with a boy of 20 who drinks and breaks dates with me. Dolly, would a girl of 18 have to get a school certificate before she could go to work?

KENTUCKY GIRL.
I certainly would not waste my perfectly good time on a boy who drinks or breaks dates. You can go to work without a school certificate. I think, however, that you can do something easier to do than working at the place you mentioned. Did you try the factories? Doing housework would be nice work for you, if you got in with a good family.

Dear Dolly—I would like to have a little advice from you as I am a married woman and sure do have a lot of trouble. I stay at home and work all the time and care for my children and do the very best I can and when my husband comes home at night he is fussing at me and accuses me of having men to come to see me and accuses me of everything mean he can think of and it is not so. I try to live in peace but I can't. He gets worse all the time. He has been married before and I don't think he can put any faith in any woman. I like my children better than anything and want to stay with them, but I can't live such a life much longer.

WEARY WOMAN.
Well—if kindness and silence will not have any effect on him, then you will have to try something else. He has got you baffled, and he knows it. So long as he thinks you are afraid of him, he will keep on ruling you with an iron hand. The time to put a stop to his meanness is right now. If you read this before he comes home tonight, get ready for him. Have the stage all set and give him the surprise of his life, and also the scare of his life. You can give him a tongue-lashing first, and if that does not have the desired effect, you can have the rolling-pin or some other weapon handy and give him a good thrashing. Even if you don't have to use it you can let him know you mean business. The fact that he was married before is no reason why he should abuse you. If he got stung, that is his hard luck. However, I think you got stung worse than he did.

SOCIAL NEWS

Miss Margaret Miller was hostess of a charming bridge-dinner last evening at her home on Sixth street, complimenting Mrs. Charles P. Caldwell, of New York City, who is the guest of her brother-in-law and sister, Mr. and Mrs. Maurice A. Coe, of 502 Glover street. The table was attractively appointed for the occasion and places were marked for Mr. and Mrs. Maurice A. Coe and guest, Mrs. Charles P. Caldwell, Mr. and Mrs. Fred L. Manning, Mr. and Mrs. Harry W. Miller, Dr. and Mrs. Howard Williamson, Miss Ruth Thompson and Mr. Clinton M. Searl. After the dinner the remainder of the evening was devoted to bridge.

Misses Louise and Philippine Yost and niece, Miss Selma Louise Yost motored to the Yost farm recently where they were entertained with a chicken dinner by Mr. and Mrs. Dan Yost.

The condition of Mrs. J. N. Ellison who has been quite ill following an operation which she underwent for appendicitis on New Year's Day, was reported greatly improved this afternoon.

Dear Dolly—I am a girl 14 years old, and Dolly do you think I am too young to go with a boy? Dolly, how old do you think a girl ought to be to go with a boy?

GOO-GOO EYES.
A girl should be 18 or over before she goes with boys.
Dear Miss Wise—Do you know the song of "Poor Little Me"? If you do, would you please print it in the paper as some girl and myself are quarreling over the words of it. And also, do you think I can write very good for my age. I'm 13 years old, and in 7 B Grade. Do you think I'm very old for my grade?

ROSE BUD.
If you want to know anything about songs, inquire at a music store. I can't take up my perfectly good space printing songs or poetry in this department.

Dear Dolly—Could you tell me where I should send for a picture of Norma Talmadge? **MOVIE FAN.**
You can buy a small picture of her in the local stores, and the movie magazines sometimes run page size pictures of this popular star. If you will send 25 cents to her secretary she will probably send you one.

Dear Dolly Wise—Will you please publish the address of Cornish and Company. They sell musical instruments. **MAY FLOWER.**
Persons who want to know anything about music or musical instruments should inquire at the local music stores.

Tom—If you know for sure that the couple are where you think they are, you can report them to the local authorities, and they will investigate the matter. The man could not run off with the girl if she did not want to go with him. If she is that kind, her parents will have to pen her up to keep her out of mischief.

A Reader—If you cannot accept the invitation I think you should send them a nice letter to reach them on the day of the celebration, and if you can afford it, a present appropriate to the occasion would be acceptable.

Women Of Three Generations
The daughter, mother and grandmother have all proved from personal experience the remarkable strengthening and tonic properties of Lydia E. Pinkham's Vegetable Compound in overcoming the ills of women. It was first made from roots and herbs in 1873 by Lydia E. Pinkham of Lynn, Mass., for her neighbors and friends. Its fame has spread from shore to shore until it is now looked upon by women everywhere as the standard remedy for women's ills. It has been proved that it benefits 98 out of every 100 women who try it, which is a marvelous record for any remedy to hold.—Advertisement.

The letter stated that several children had been admitted since last Christmas and that they had never seen a Christmas tree before. She said that if the ladies could have seen the look on their faces when they got their first glimpse of the gaily decorated tree on Christmas morning, they would have been amply repaid for the time and money they spent in preparing the box for the children.

Adventures Of The Twins

BY OLIVE ROBERTS BARTON

THE Fairy Queen sent word to the Twins by Silver Wings, one of her fairy messengers, that if Mr. Dusty Coat, the Sandman, would spare them and take care of Dreamland by himself for a little while, she would like very much to have them help her in another part of her kingdom.
So, leaving Dreamland (after saying goodbye to Dusty Coat who said he could manage alone nicely) Nancy and Nick wished themselves at the Fairy Queen's palace.
The good queen was on her throne, looking ever so upset about something, and before her stood a funny little man in a blue cap and a blue coat with a row of buttons down the front. Only he was holding his cap in his hands now, as one never stands before a queen with his hat on.
"Mr. Stamps, this is Nancy and Nick, the Twins I told you about," the queen said. "Children, this is Mr. Stamps, my fairy postman. He runs the postoffice in Fairyland."
"How do you do?" said Nancy, making a courtesy.
"How do you do?" bowed Nick.
"The very best I can, thank you," sighed Mr. Stamps, bowing also and saying he was very delighted to meet them both.
"Mr. Stamps says he is having a dreadful time," the Fairy Queen informed them. "He says that people wrote so poorly he cannot read the addresses and as a result he has to put all letters in the dead letter office. That's what they call lost letters, you know. Do you think you could help him to straighten out this tangle?"
"Oh, I'm sure we can," said Nancy. "Can't we, Nick?"
"I was thinking," said the little boy, "that perhaps the Green Wizard would make us a pair of, magical glasses to read bad writing."
"A fine idea! Why, you're helping already!" declared Mr. Stamps admiringly. "How soon do you think you can come?"
"Right now if you need us!" answered Nancy and Nick.

For Swollen Joints

The home of Dr. and Mrs. T. C. Beatty, 4011 Rhodes Avenue, was the delightful meeting place of the Jiggs Club last evening. The time was devoted to Five Hundred and at the conclusion of the playing a delicious salad course was served to Mr. and Mrs. Ellsworth Damon, Mr. and Mrs. William Quinn, Mr. and Mrs. J. Vaughn Finney, Mr. and Mrs. Clarence Duzan, Mr. and Mrs. Robert Townsend and Mr. and Mrs. Joseph Babcock.

JACK DAW'S ADVENTURES

Jack was very interested. It was the first time he had ever seen homes made out of iceboxes. He joined the snowmen in their approach to one of the houses and then inspected it. The little door opened when Jack pressed down on a handle just like on the icebox in Jack's house.

"Do you ever keep anything to eat in these iceboxes?" asked Jack. "Oh, no," replied a snowman, "we don't have to. You see, the only thing we eat is ice cream, and that grows on the ice cream cone trees in Frost Town. Well, then," said Jack, "what is that garden back of the house for?"

"Come on back and we'll show you," shouted another snow fellow. When they reached the edge of the garden, this snow man leaned over and picked something. Holding it up he said, "This is an icicle. You may have heard of icicles. Well, this is where they come from." (Continued).

PORTSMOUTH, OHIO

Eagles Plan For Class Initiation

River City Aerie of Eagles at its meeting Thursday night voted \$3,500 to pay on indebtedness incurred in remodeling of their building at Second and Court streets, sometime ago. Two applications were received and plans were discussed in connection with the big class initiation scheduled for Feb. 22. It is expected that 100 new members will be admitted at this time.

Taken Back To Kentucky

M. Perkins, young man apprehended by the police for the Paintsville, Ky., authorities, was returned to Eastern Kentucky Thursday by Frank Cottle, Chief of Police of Paintsville, who came after the prisoner. He was taken back to Kentucky to answer to a charge of rape against him.

Capt. Hamilton Dies

It will be learned with regret by the many river men here that Capt. Sam Hamilton, aged 84, died at his home in Gallipolis, O., recently.

He was well known here, having operated boats on the Ohio for many years. He is the father of George Hamilton, pilot on the Greenwood.

Has Recovered
Dr. A. S. Brady of Greenup has recovered from his recent serious illness.

RIVER NEWS

The Ohio river registered a stage of 18.2 feet and rising slowly in the Portsmouth district Friday morning. Boat movements Friday were: General Wood down at 6 a. m. and Greenwood down at 7 a. m. bound for Cincinnati; Andes up at 2 p. m. for Charleston.

The Robert P. Gilham passed down this morning with a big load of coal for delivery at Cincinnati and points below.

WILL RETURN TO STATE

COLUMBUS, Jan. 12.—Ohio State will probably profit by the turn of affairs at Wilmington College that has cost that institution many of her football men, while at the same time Shifty Bolton, former of Ohio State Star, will be the loser.

Among the Columbus boys on the Wilmington team one has already entered Ohio State and several more are thinking seriously of doing the same thing, according to Pat Jackson, Wilmington guard, who is now a student here. Mark Wille, end, and Karl Christman, center, will enter Ohio State in September; Walter Kurtzholz, Wilmington captain last year, will probably enter at the beginning of the next quarter, and Miles, end, has not yet definitely decided, Jackson says. All these men formerly played with West High School here.

At this time of each year the policy of this store demands that all odd lots and stocks of winter goods be closed out as rapidly as possible. To do this quickly we have cut the prices to cost and in many instances to below cost for this smashing one week sale. No doubt, many lots will be exhausted early in the sale, due to the exceptional values offered, so do not wait until the last day, else you may be disappointed. BREING UP FATHER

WHAT'S YOUR HUSBAND DOING?

All members of Yezigard Grotto have received the following letter from George F. Eulrick, Earl Han- nabe and W. A. Pepper who are in charge of the Grotto theatre party

to be held at the Sun next week.

Dear Prophet:

Do you know that Thurs- day evening, January eighteenth, will be the biggest night in the year for Yezigard Grotto? Why? That's the night of the Grotto theatre party to be held at the Sun theatre. You remember the courtesy extended to Yezigard Grotto by the management of the Jack Ball Stock Company in Decem- ber. If you took advantage of their invitation then, you will want to at- tend this party. Not only that, but you will miss an evening of fun and hilarity if you don't put on your fez and get your seats for this night. There will be stunts galore. Something doing every minute. Mr. Hawkins has selected a special play, "What's Your Husband Doing?" and he says it is a laugh every minute. The com- mittee in charge have arranged sev- eral stunts, surprises and—oh yes!

every Prophet will receive a favor. Anyway, if you don't get one, it will be your own fault. The play starts at 8:15 p. m., but the fun starts as soon as you get there, so come early. There will be special music before and during the play, and some special songs by Alex Macintosh. Every Prophet must reserve their own seats at the Sun theatre. They are on sale now. Don't wait. Get them early. The entire theatre will be reserved until Tuesday night, January 16th. After that, you take your own chances. Bring this letter with you when you get your seats. All Prophets, their wives, families and sweethearts are invited. Let's all go and make this a night to be remembered.

IRONTON IS AFTER INDUSTRY

IRONTON, O., Jan. 12.—A meeting of the Board of Directors of the Chamber of Commerce and a number of Ironton business men has been called to consider an industrial mat- ter of the greatest importance to this community. Eastern parties are to arrive here to discuss with local men the erection of a large industrial institution and it is the wish of the Directors that the business men called into this meeting familiarize themselves with the details of the proposition before the conference. It has been known for several months that Chamber of Commerce officials have been negotiating for a large industry for this city.

Awarded Distinguished Service Cross

Frank Heiser, of Ripley, a for- mer private in Company B, Ma- chine Gun Battalion 136, 37th division, was awarded a Dis- tinguished Service Cross by the War Department. The presentation was made at Ft. Thomas, Janu- ary 10. The emblem is in recog- nition of bravery displayed by Pri- vate Heiser during the World war in France. He was in command of a plat- oon in an attack. Held back by fire from machine guns of the Germans, Heiser left the platoon, circled the machine guns, killed the officers in charge and took 15 prisoners single-handed.

THE GREATEST PINCH-HITTING I EVER SAW
When a manager makes substitu- tions in his line-up, he is always tempted fate. If his changes work out properly, and play a part in winning the ball game, he is labeled a wise guy. If his pinch hitters or pitchers fail to deliver and the game is lost, then he is classed as a ddb. It is simply a gamble, which the second guesser can always pick to pieces. I have seen many a ball game broken up through a swat by some pinch hitter. I have seen many a pinch hitter take up a tense situa- tion and get away with it. Likewise, I have seen a great many more pinch hitters and pitch- ers "fliver" than those who come through. However, during the first series at Philadelphia last year between the Athletics and Detroit, I saw pinch batters on three successive days come through and save the day. When a manager makes substitu- tions he does out what batter or pitcher has the best chance to come through, and then sits tight on his judgment. In one game, with the Athletics leading 5 to 2 in the first half of the ninth, with two on the bases, Cobb sent Clarke in to pinch hit. He hit the first ball pitched for a home run, tying up the game. It ended in a tie. The next day Veach was sent in as pinch hitter, drew a base on balls and scored the tying run. Detroit won out in the next inning. The next day with the Athletics leading by a run in the eighth, Flag- stead, a pinch hitter, swatted a home run, tying up the game. Detroit won out in the next inning. Detroit won out in the next inning.

Buy's Home

SHADED EFFECTS
Shaded effects are noticed on many of the newest gowns. A black gown, for instance, will be trimmed with layers of chiffon shading from or- chid to purple, or orange to the palest yellow. Often the whole up- per part of the frock is treated this way.

OUR ONE PRICE POLICY

A one price policy is the only honest business method. That one customer should be charged one price and another a different price is a practice which is unfair alike to buyer and seller.

Our policy is clear and simple—Our price represents the lowest that we can make — it is plainly marked for all to read. It is the same to all, for business which is built for years is built on a basis of confidence — confidence that the merchandise is right and that the price is fixed. Dickering and bartering are obsolete as applied to modern retail merchandising. It is the customer's right to know that he is paying the right price and that his ability or lack of ability to trade is not reflected in what he pays.

Our customers may rest assured that each receives the utmost in service and the lowest in price, that each is fairly dealt with on the one price basis.

Steel Buying Continues Active; Very Little Consideration Given To Prices

CLEVELAND, O., Jan. 12.—Iron and steel buying today said: Underlying strength due to the large order books which producers recently have accumulated and to the outlook for continuing heavy demand, more clearly is stamped upon the current developments in the iron and steel market. This condition, together with the promise of an indefinite period of higher cost of production, has caused a contraction of the tonnage offered and a stiffening of prices in practically all lines. Mill activities since the first of the year

have gone ahead slightly and now are around 85 per cent. New buying of steel which was unusually active during the holiday season, has continued on a large scale in the first week of the year. Buyers apparently are more impressed by the threat of prolonged and uncertain deliveries of future material and are giving less consideration to prices. The structural market is making an exceptional showing for the season, 50,000 tons having been placed during the past two weeks. Oil tank contracts just placed or now pending call for over 100 tanks additional involving 25,000 to 35,000 tons. Independent sheet makers representing approximately two-thirds of the country report December sales as 350,624 tons or 136.6 per cent of monthly capacity. This compares with 172,774 tons in November. Completed records of railroad car orders show 1922 to be the most active period in 10 years, total orders reaching 180,465. December showed 23,255 cars placed and was the second largest month of the year. Equipment buying has started the new year in an encouraging fashion. Awards this week were 5,000. The upward tendency of prices is expressed in Iron Trade Review composite of fourteen leading iron and steel products which advanced this week to \$41.05. A week ago it was \$40.37 and two weeks ago when the turn upward first shown it was \$40.05. Pig iron buying has dropped back to a moderate volume after the heavy December bookings. Prices show a further upward tendency. Staff cable dispatches to Iron Trade Review put a cheerful construction upon the industrial effects in Europe from the recent international political disturbances. In Great Britain and France business is reported to be improved everywhere while German exports are on a high level.

MR. HOWLAND TO DIRECT CHORUS

C. M. Howland, superintendent of the First Christian Bible School, has accepted the added burden of director of the big church chorus, which will hold its rehearsal this evening at 7:15 o'clock. Mr. Howland will succeed Elmer Fetter, who recently landed in his resignation. It is hoped that every member of the chorus will report promptly this evening. Mr. Howland was choir director for several years, and is recognized as one of the leading bass singers in the city, and a man eminently qualified to direct the chorus.

BARE GREAT "MOONSHINE INDUSTRY" IN CINCINNATI; WOMEN INVOLVED, CHARGED

CINCINNATI, O., January 12.—(By the Associated Press)—Revelations of the alleged existence of great "moonshine industry" in Cincinnati, involving hundreds of men and women and causing the exchange of thousands of dollars each week, have been made to Frank A. Hight, U. S. prohibition agent in charge of the Cincinnati bureau, was known today.

The "moon" business is said to be dominated by a "ring" of wealthy men, who remain in the background and derive great profits from the sale of the illicit liquor. It is said that the names of several men, who are classed among the "high ups," have been given to the prohibition agents.

According to the federal agents, the "ring" installs stills in homes, paying

the owners \$100 a week to use their cellars or attics. It sends experienced operatives to make the liquor and dispose of it through agents. It is asserted, should the home-owners be arrested, they are to make no disclosure, the "ring" agreeing to pay the fine imposed by the court and to continue the \$100 a week allowance in the event of jail sentences, it is alleged.

NATION'S DRY FLEET STRENGTHENED AS THE RUM RUNNERS SWARM EAST COAST

WASHINGTON, January 12.—(By the Associated Press)—An immediate report was demanded by prohibition officials here from the New Jersey headquarters, concerning dispatches printed in this morning's papers describing the extensive landing of smuggled liquors on the New Jersey coast.

It was said at the bureau that officials realized the inadequacy of the personnel engaged in the coast guard operations to completely check the operations of smugglers but officials considered the dispatches published today "as probably grossly exaggerated."

Aroused by the activities of rum runners off the Highlands, acting collector of the Port Stuart today ordered two coast guard cutters to the scene for the purpose of "control and observation."

The gigantic speed boat Margaret B. long sought by the dry navy as one of the most successful of the smaller rum running craft, was brought into port today by customs agents who captured her with three other shore rum runners off the Jersey coast last night.

She rode deep in the water beneath a huge cargo of liquor in barrels. One of her crew of two was badly hurt, apparently having been injured in a struggle when his craft was boarded.

The Nina and Ida, a smaller motor craft, also was brought and her crew of two together with the men from the Margaret B. were taken to the large office for examination. Customs men said two more prizes were being brought in.

NEW YORK, Jan. 12.—(By A. P.) It is considered the rum smugglers

most concentrated attack on the Atlantic seaboard, apparently ignorant that the dry navy had just replaced its retired New York flagship Hansen with the Lexington, an armored cruiser mounting machine guns.

A fleet of three steamers and 10 schooners dropped anchor off Sandy Hook yesterday and immediately a swarm of fifty small craft put off from shore to meet them. The value of the liquor aboard the mother ships was roughly estimated in the millions, if each carrier was loaded to capacity.

Campaign Rapped Out.

The smugglers' latest offensive evidently caught directors of the dry navy unawares. John D. Appleby, marine prohibition director in this zone, hastily went into conference with E. C. Yellowly, state federal enforcement agent, and a plan of campaign was whipped together.

At first it was decided to despatch a flotilla from New York to seize the mother ships, but later this plan was changed. Instead, radio orders were flashed to dry vessels on patrol duty to watch all possible landing points and cut off the small craft from reaching their shore bases.

The swarm of rum running craft which today sought by sheer strength of numbers to overwhelm the prohibition navy with its newly acquired gunoting flagship Lexington, last night, suffered its first "casualty," according to observers at Sandy Hook. It was reported that the launch Margaret B. laden to the gunwales with whiskey was captured by a coast guard cutter.

Almost simultaneously three other vessels of the rum fleet were reported to have been seized by coast guard craft off Ambrose Channel lightship. The quadruple haul totaled 1,000 cases. Besides the Margaret B., officials said they had

confiscated the Evelyn, a twenty-five foot sea "skiff," an unnamed launch and a rummer's scout boat, all of which were believed to have been owned in Highland, N. J.

Craft Sent Scuttling.

The revenue cutter Surveyor plowed into the swarming flotilla of little craft shortly after the four boats were seized, sending them scattering like a brood of frightened ducklings.

But she arrived too late. The speediest of the little ones escaped in a shoreward direction and before the Surveyor could put out after the slower vessels, they had attained the safety of the three mile limit.

Crew Members Taken.

Ten members of the seized boats' crew were captured. Three of the crew of the Evelyn leaped into shallow water as the coast guards came upon them, and escaped ashore.

The Margaret B. is reported to have carried three hundred cases and seven fifty gallon barrels of whiskey. Coast guard officials said the total value of last night's haul would be \$100,000.

Seething With Rum Activity.

HIGHLANDS, N. J., Jan. 12.—(By the Associated Press)—"Bootleggers' haven" as this little summer resort on the New Jersey coast is called by its inhabitants is seething today with rum-running activity. Thousands upon thousands of cases of liquor taken from a fleet of 22 vessels—three steamers and 19 schooners—that lies off Ambrose Channel lightship, are being landed in a hundred different places by fast bootlegger boats. A visit to any of the many snug harbors and boat landings unfolds bustling scenes in the business of "running while the running's good."

No Seizure Maintained.

Fleets of motor trucks and passenger cars are drawn alongside private boat house docks and piers. No one is making any bones about what is going on.

The town's restaurants are doing a running business, with patrons who frequently pause in their munching of hurried meals, to indulge in laughs over the "coup" they believe they have "put over" on enforcement agents. Well known runners predicted that 35,000 cases of liquor would be brought in today—most of it destined for Manhattan, but some truck drivers have instructions to go to Jersey City, Newark, Philadelphia, Boston and Washington. The rum runners make not the least effort to disguise their actions. The transfer from power boats to trucks and passenger cars goes on noisily. At the various landing places there is good natured laughter, bursts of song and bantering. It is a lucrative day for every one.

Bottle Lends Encouragement.

Down at the mouth of the Shrewsbury River, at a little landing, one boat crew unloaded a cargo of 1,000 cases. The air is biting cold, but the men are in their shirt sleeves and perspire freely.

"Hurry, hurry, hurry!" they cry, and to lend encouragement a bottle is passed now and then as truck after truck is loaded, each escorted by a four passenger car, carrying two or three heavily armed men and starts away on its journey into the day.

Some of the incoming power boats bring news of a coast guard vessel, carrying machine guns and presumably from Sandy Hook, that has made several unsuccessful attempts to overhaul them.

"She is too slow," they say.

Athletes Are Under Fire

The Columbus State Journal Friday of local interest said:

"The much-talked-of Aquinas athletes, Peacock, Klunk and Albanese, who were accused of being ineligible during football season, are now up for a second accusation by rival coaches of Columbus high schools.

"At a meeting of the coaches Wednesday afternoon the three players were voted to be on probation and suspended from play until another investigation is made by the eligibility committee.

"Coach Mike Boland has intimated that he will resign as coach at the Catholic institution if the players are not allowed to play basketball this winter."

Defends His Stand

NEW YORK, January 12.—(By the Associated Press.)—President A. Lawrence Lowell, of Harvard University in a letter to Roscoe Conklyn Bruce, prominent negro graduate of the University, published in the New York World today, defends the exclusion of negro students from freshmen dormitories.

Mr. Lowell declares that while the negro is entitled to the same opportunity for education as the white man "we do not owe to him to force him and the white into social relations that are not, or may not be mutually congenial."

Mr. Bruce's recent request that a room be reserved in the freshman hall for his son, who is preparing to enter Harvard, was denied.

3400 Men Seek 50 Jobs To Be Handed Out By Donahey

COLUMBUS, January 11. (By the Associated Press.)—If Governor Donahey had sixty-eight times as many state jobs within his authority to fill, he might be able to satisfy the patronage seekers who, to date, have made application for positions. It was stated at the executive office today.

The application list now contains 3,400 names and the number of positions within the Governor's authority to fill are not to exceed 50. It was said, thus making sixty-eight applicants for each position.

Though most of the applicants for positions, do not designate a particular position, the applicant apparently being satisfied with anything the Governor has to hand out, the more lucrative positions have a number of specific applicants, the state fire marshal being the prize most desired.

There were said to be applicants for positions which it would be impossible for the Governor to fill on account of them being under civil service.

To Hear Fire Suckers

Mr. Donahey expects to give most of his time during the remainder of this week to consideration of applications for positions, but it was stated that beginning next Monday, he expects to give only afternoons to patronage seekers and visitors. The forenoon, it was stated, would be devoted by the executive to state business and conferring with members of the Legislature relative to legislative matters. It was pointed out that he has not been able to give state and legislative matters the attention he desires to give them because of his attempt to meet all visitors and persons wishing to confer with him concerning patronage.

Exclusive of the prohibition enforcement division and the state fire marshal's office, it was stated that the executive will not have more than a dozen or two positions at his disposal to fill. Employees in these two departments are not under civil service.

Several Big Jobs Open

The best jobs yet to be filled by Mr. Donahey other than the fire marshal position which pays \$4,500 a year, are

Superintendent of Banks, \$7,500; Assistant Bank Superintendent, \$5,000; Attorney Banking Department, \$3,000; and a Secretary, \$1,800; Budget Commissioner, \$4,500, and Assistant \$2,400; Purchasing Agent \$5,000, and Assistant \$3,000; Building and Loan Superintendent \$3,000; Chief of Security in the department \$4,000.

Most of these positions, it was understood would be filled within a short time.

The Governor today announced the appointment of Attorney Harry L. Conn, of Van Wert, as Superintendent of Insurance to succeed E. W. Gearhart, of Columbus. Mr. Conn is a director and counsel of the Central Manufacturers' Insurance Company of Van Wert, and the Ohio underwriters' Mutual Fire Insurance Company, of that city. He also is a director of the American Underwriters of Chicago, and has been special examiner for a number of other companies. He also is Vice President of the First National Bank of Van Wert, and chairman of the Board of Trustees of the Marshall Foundation, a \$5,000,000 charitable trust at Van Wert.

Dunham issued a warning Friday that dog owners only have a few days left in which to secure tags for their canines without running counter to the law, as the sheriff and his deputies are planning to inaugurate a vigorous campaign on January 20 against tagless dogs and their owners, who are subject to fine for failure to comply with the law.

The sheriff is hopeful that prosecutions will not be necessary and that dog owners will avail themselves of the opportunity to buy the necessary

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a yellow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sicknesses comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 25c and 50c.—Advertisement.

Dairy Feeding Is Discussed

Mr. McKellip discussed the most economical and efficient ways of feeding.

HUMAN HEAD IS FOUND

A head of a human body was found on the bank of the Ohio river at Dam 32 near Vanceburg several days ago by Fred Darnell, employee of the Dravo Construction Company. As Darnell stooped down to pick up a tool from the sandy shore his hand came in contact with a hairy, substance that protruded above the surface of the ground. After digging carefully around the strange object a most gruesome object greeted the eyes of the workmen who gathered about to see what Darnell had found, as it proved to be a man's head. It was turned over to the undertaker at Vanceburg. The head is thought to have been that of the body of

New Church Organized At North Moreland

As a result of the two weeks evangelistic services conducted in the newly constructed chapel a new United Brethren class of twenty-four members was organized Thursday evening at the close of the regular service by Rev. E. H. Dailey, pastor of First U. B. church and leader of the Portsmouth district of the Southeast Ohio Conference. The charter will be held open for several days as many others will unite with this newly organized class that will fill a long felt need in North Moreland, a fast growing section of the city, that hitherto has been denied church and Sunday school privileges. Very soon the Southeast Ohio Conference will appoint a regular minister who will live in the community and give his entire time to religious ministries.

The attendance and interest have been splendid from the very beginning. Large crowds have been in attendance each night at the special revival services. Last Sunday morning at the initial session of the Sunday school, ninety-nine assembled for instruction in the Word of God. Sixty-four of these were children who heretofore had been denied the privilege of religious training and instruction. Perhaps only six or eight of those present had attended Sunday school since living in the community on account of the long distance to walk to New Boston.

The evangelistic meetings will continue tonight and Saturday night and on Sunday the chapel will be dedicated to the service of Almighty God in the community of North Moreland. Dr. J. H. Harris, superintendent of the Southeast Ohio Conference and Dr. R. A. Hitt of Westerville, will be in charge of the dedicatory services. There will be four great services during the day as follows: Sunday morning worship at ten, a platform meeting in the afternoon at two, and the evening service at seven-thirty. The chapel will be formally dedicated to the work and worship of God about eight thirty Sunday night. A cordial invitation is extended to the public generally to attend all of these services.

Special Services

Will Be Held

At the Presbyterian Church in Buena Vista Rev. Leigh O. Wright plans to begin a series of evangelistic meetings on next Tuesday evening. You are invited to attend.

UNITED BRETHREN CHURCH NEWS

The revival being conducted at the North Moreland chapel by Reverends E. H. Dailey and C. M. Sweeney has been full of interest, whole families having publicly avowed their faith in Christ as Lord and Saviour. To date there have been thirty-three conversions and reclamations.

Thursday night at the close of the service the charter for the new class was opened and twenty-four answered the disciplinary questions confessing their faith in Christ. The charter will be held open until after the dedicatory services next Sunday and it will take several weeks to complete the details of the organization. The Sunday school, Christian Endeavor Societies, a Ladies' Society and other departmental activities will be fully organized within a few weeks' time.

Sunday, January 14th, is the day set aside to dedicate the new little chapel to the work and worship of Almighty God in the North Moreland community, a section of the city of Portsmouth that heretofore has been

denied church and Sunday school privileges. Dr. J. H. Harris of Westerville, superintendent of the Southeast Ohio Conference and Dr. R. A. Hitt will be present at all three services at North Moreland on Sunday and Dr. Harris will preach at the regular morning worship period at the First church and Dr. Hitt at the seven o'clock service.

The entire membership of First church and all friends and well wishers are cordially invited to attend the platform meeting at the chapel at two o'clock Sunday afternoon.

In addition to the dedicatory services at North Moreland the regular services will be conducted at the First church, corner of Seventh and Gay streets and also at Navvoo where Rev. C. M. Sweeney is in charge.

Beginning next Wednesday evening the pastor of the First United Brethren church, assisted by Rev. C. M. Sweeney, will begin a series of special revival meetings at the church, corner of Seventh and Gay streets.

Court House

Bihlman Must Testify

Paul Bihlman, clerk, will be required to appear and testify in his own behalf in the divorce and alimony suit of his wife, Alberta Bihlman, 913 Eleventh street, which was partially heard by Judge Thomas in Common Pleas court Friday and then continued until the defendant can be brought into court. Lenora Johnson, 2034 Sixth street, charges cruelty and neglect in her suit for divorce and alimony instituted in Common Pleas court Friday against Charles Johnson, carpenter.

Through Attorneys Blair and Blair the wife in her petition says that at the time of her marriage in February, 1918, she had one daughter and six children of former marriages and then she complains that Johnson has cursed and abused, threatened to assault and beat her, ordered to leave her home and declares that he encouraged and permitted his children to abuse and assault her, besides, she claims that he has failed to support her. She also seeks the custody of the three minor children born of the present marriage.

Ordered To Pay Alimony

Anthony Bara, cabinet maker, was ordered by Judge Thomas, following a hearing in Common Pleas court Fri-

day to pay his wife, Jessie Bara, the sum of \$5 a week pending the final hearing on her petition for divorce and alimony.

Husband Given The Divorce

According to an approved entry filed in the office of the clerk of courts Friday, Judge Thomas has made a finding in favor of the defendant in the divorce suit of Ruby Ferguson against Vincent Ferguson, the court dismissing the wife's petition for lack of proof to support her charges and granting the husband a decree for divorce on his cross petition. In granting the decree and awarding Ferguson the custody of their two minor children, the court ordered that neither party shall marry until after the expiration of one year. They were married in September, 1919.

Defendant Files Answer

For answer and cross petition to the divorce and alimony suit of Lulu Lohier, Robert Lohier denies her charges and through Attorney Theo. K. Funk accuses her of cruelty and infidelity, declaring that she has constantly abused him and inflicted violence on him on many occasions, besides, he alleges, that she has been guilty of misconduct with other men, but notwithstanding all this, he says, that for the sake of their minor children, he is willing to forget the past and start life anew; but in the event the wife refuses a reconciliation then he asks that he may be granted the

divorce and custody of their minor children.

Mr. Kline Answers

A. Kline, president of the A. Kline Co., defendants in a suit filed by Baer and Hoffman, Inc., of New York City, seeking payment for a bill of goods they claim was sold to the local concern, filed his answer in Common Pleas court yesterday.

Mrs. Tackett Sues

Mrs. Mary A. Tackett filed suit yesterday in Common Pleas court against Walter W. Tackett, seeking divorce. They were married May 20, 1920, and have no children.

Gross neglect of duty and extreme cruelty are the allegations in the petition.

Successful Three Day Cooking School Comes To A Close; Record Crowds Attend

"Bake your apple pie in one hour," said Miss Margaret Welmer, domestic science expert of the Daily Times and Morning Sun cooking school which closed a most successful three day session in Baestman's hall this afternoon when another capacity crowd greeted the demonstrator and her assistants. This afternoon was devoted entirely to fancy yeast breads and pastry. Bread mixing and baking is one demonstration that cannot be given in a few minutes and it was necessary to prepare the greater part of the dough Friday morning so it would be ready for baking this afternoon. A small amount of dough was

mixed at the afternoon meeting to demonstrate the proper method of handling to get the best results. "Many housewives handle dough too much," said Miss Welmer. The standard loaf of bread used in the American home, coffee cake, hot cross buns, rolls, and pastry were all discussed. Miss Welmer as in the past lectures, impressed upon her listeners the importance of using the proper temperature for all baked dishes. The fundamental principle of using slow heat for all protein foods has been made one of the most important points in all her lectures.

Miss Welmer strongly recommends the use of an oven thermometer to obtain the best results in securing the proper heated oven. The school closed with this afternoon's lesson and it was the consensus of opinion of the attendants and those in charge that it has been one of the most successful ever conducted here. The crowd attending the school yesterday when cakes were demonstrated numbered well over 800. The added 350 chairs placed in the hall yesterday were filled. The attendance this afternoon was almost as large.

The model kitchen fitted up by Horchows has also received many favorable comments. The Washburn-Crosby Company of Minneapolis will have a corps of workers here for several weeks conducting a campaign for Gold Medal flour. Miss Welmer the instructor leaves today for Buffalo.

In connection with the school the Ladies Union of the Sciotoville Christian church will hold a bake sale tomorrow at Sciotoville when Gold Medal products baked in the school will be sold.

The recipes used yesterday by Miss Welmer and others which she recommends are as follows:

Atty. Will J. Meyer May Be Retained At Columbus

An inquiry received Friday by Edward Cunningham, chairman of the Republican Executive Committee, contains an intimation that Attorney Will J. Meyer may retain his position as assistant to the attorney general's office at Columbus.

The inquiry came from the new attorney general, C. C. Crabbe, asking if it would meet the approval of the Republican Executive Committee should he appoint Mr. Meyer to his present post as assistant, which he has occupied during the past four years, under the administration of John G. Price.

It is thought local Republicans will hasten to reply to the query and not only give their approval but strongly urge the reappointment of the native son.

Startling Evidence Leading To Sensational Investigation of Liquor Traffic In Capital

WASHINGTON, January 12.—(By the Associated Press)—Prior to a conference with prohibition officials, Representative Upshaw, Democrat, Georgia, announced that while he was armed with evidence relating to Volstead law violations by members of Congress and high government officials, the names of alleged offenders if made public, would have to come from Commissioner Haynes.

"I am giving to Mr. Haynes the name of the official who recently returned from Europe with more than 100 cases of liquor marked 'diplomatic' when he had no right to so mark his contraband stuff," said Mr. Upshaw.

"I am giving him also the name of a professional bootlegger who has been operating in the house office building, who was reported and fined several times and immediately returned to his outlaw trade."

Activities of this bootlegger were recounted to the house this week by the Georgian, who read a letter from the daughter of a representative, though no names were mentioned.

"Only yesterday I received information of a startling nature which will be the basis for a sensational investigation by the bureau."

At the prohibition headquarters Mr. Upshaw spent some time with Assistant Commissioner Jones and when he left he said he had submitted evidence of violations of the prohibition law in official Washington, "so flagrant as to call for immediate drastic action."

"The Georgia representative said he was 'especially outraged' by evidence which had been put in his hands and given by him to Mr. Jones, 'concerning the liquor leakage from some foreign embassies here.' He declared that any ambassador permitting such a leak 'should be made persona non grata to the American government.'"

Mr. Jones described the information laid before him by the Georgia representative as similar to the miniature "leads" which come to the bureau every day from law-loving citizens. He said the prohibition authorities would investigate each of the cases reported in the regular way and would take action according to the facts.

Mr. Jones declined to say whether specific names and places were mentioned in the data given him, but said that "one embassy" was connected with the Georgia member charges.

Klan Head Requests Conference Offers To Bare Secrets Of Organization

BASTROP, La., January 12.—(By the Associated Press)—States attorney announced today that Captain J. K. Skipwith, exalted cyclops of the Morehouse Parish Ku Klux Klan, has requested a conference with Attorney General A. V. Coco and his assistants in connection with the hooded band atrocities in this parish.

Captain Skipwith is said to have requested the conference in order to go into the full details of the operations of the Morehouse Klan since its organization and at the same time to establish that the operations of the black hooded band was not under the supervision of the Klan.

Assistant Attorney General Guion, confirmed the report that Captain Skipwith had made overtures to the attorney general's staff and said that the klansmen's request would be granted. No date was fixed for the conference, it was said. It is probable it will be held immediately.

Before the session began today state attorneys received an offer from Skipwith, exalted cyclops of the Klan to detail every activity of the organization since its founding here.

"You are pursuing the wrong course in handling this investigation," Skipwith told Assistant Attorney General Youlon and Federal Prosecutor Warren when he met them as they were walking toward the court house. "If you desire, you can learn everything the Klan has done in this parish. You can learn it from officials of the Klan."

The suggestion for the conference followed, Captain Skipwith earlier expressed the opinion that the state is making a mistake in its method of

handling the open hearing in that it is not confining itself to the murder of Daniel and Richard, but is digging into old feud in the parish.

"This feud has died out. Bloodshed will be the result of this," he said. "The feud will be renewed. Why not leave the old thing alone and investigate the murder?"

Robert L. Dade, mayor of Mer Rouge, today named Dr. R. M. McKoin, Captain J. K. Skipwith, Kelly Harp and Ed Ivy, as members of a Ku Klux band which held up and disarmed Watt Daniel, W. C. Andrews and Harry Neel, Mer Rouge citizens, near the village of Gallion, La., several months previous to the kidnapping and murder of Daniel and Thomas Richard, last August.

Dade had admitted previously that he was a member of the Klan band. "Can you say whether J. D. Higginbotham was with the band?" George S. Guion, assistant attorney general asked.

"I am not positive," Dade replied. "What was the purpose of the

trip?"

"We started up to investigate a report that a negro was running a gambling house in which white persons were permitted to gamble with negroes."

"Did you find that condition to exist?"

"No the house was dark."

Bringing his narrative to the holding up of the three men, Dade continued.

"Neels, Daniel and Andrews had stopped their auto up the road and were sitting in the car. Some of the men approached and asked them who they were."

"Were they whipped?"

"No there was no violence, but their guns were taken away from them."

"Was there anything else contemplated or suggested?"

"There was some talk of giving them a whipping, but I said: 'Fellows, that will not do. I have known those boys all the time, and I cannot stand for that.'"

Commander Clayton took up the matter with Safety Director S. Straus and the result is that the men will be kept moving when they hit this city. According to Commander Clayton the men selling the magazines and the publishers are about the only ones who are benefited and that some of the men benefited them never were in the service.

Ann Hyatt (at right), Who Brought Suit in Court Because Dorothy Knapp's Figure (at left) Was Judged to Come Nearest the Proportions of the Venus de Milo.

THE BEAUTY CODE THAT BROUGHT TROUBLE TO ONE PRIZE WINNER

Excerpts from "Beautygrams," Written by Corliss Palmer

With beauty, everything else comes easy. Beauty makes charm and winsomeness; with this trinity usually goes the winning of a good husband and home and—more important—happiness of them. If it were not for the men we women, I fear, would not try so hard to be beautiful. Don't forget that beauty is a power. It is to a woman what capital is to a merchant. A beautiful mouth and velvety lips carry the mind to the land of romance and love. The lips are love's delicious weapons of attraction as well as seal of approval. There probably is no woman in the world so beautiful that she cannot be made more beautiful. You who have mere physical beauty, beware! You may have admiration, but you have not Love!

And there is the ravishing Dorothy Knapp, decided to be the nearest human duplicate of the Venus de Milo at the Physical Culture Show and Beauty Contest at Madison Square Garden, New York, this winter, who was called to defend a suit for \$100,000 when Miss Ann Hyatt, another entrant of the contest, declared that the decision had been wrongfully rendered and should have gone to herself instead of to Miss Knapp.

And as the last of the lot there is Miriam de Milo, known on the stage as the "Modern Venus," who seeks a decree of divorce from her second husband, James F. Simmons, a wealthy Los Angeles merchant. Mrs. Simmons was the widow of Abe Hammerstein, the New York theatrical man.

Now, aren't these troubles enough almost to compensate—or perhaps one should say to take the joy out of—the beauty that could be crowded into one face and figure?

As Corliss Palmer explained, she grew tired of living in Macon, since the town was "stupid" when placed in comparison with New York. She was scared to death when she visited the Brewster offices to enter the big contest and Brewster didn't care for her style at first at all—strange as it may seem now! He preferred blonde beauty, while her hair was Titian red and her coloring matched it.

Writer of "Beauty Hints"

When she did win, however, she was so happy about it all that she could hardly get her mind down to writing the "Beauty Hints" department on Brewster's magazine, "Beauty." Then Mrs. Brewster, she explained, invited her to her Long Island home to live.

Mrs. Brewster denies this. However that may be, the palatial residence near Morristown, N.J., was opened, the beauty winner together with her mother and sisters installed there—and Brewster. When the storm reached the point where Mrs. Brewster referred to the girl as "that Palmer person," Mrs. Brewster No. 1, who had been the wife of the publisher 19 years, raised her voice in applause and said Mrs. Brewster No. 2 was getting exactly what she deserved!

Pretty Helen Harris's troubles were brought about, she said, through her husband's grand opera taste while hers ran to jazz! He wanted her to read sonnets and essays while she wanted to revel in stories of adventure and love. He wanted her to study Greek drama while she wanted the movies. He wanted her to be wholly domestic while she wanted always to dance. He wanted her to be a haughty high-brow while she wanted to be a light-headed low-brow.

Preferred Blondes to Brunettes

So, of course, what happened was trouble in the Harris ménage. Harris, said Helen, also preferred blondes while she is very, very brunette! The divorce court ended their difficulties.

Madeline Gildersleeve met young Leonard W. Pollock three years ago and almost immediately afterward became his wife. She was the daughter of a family in moderate circumstances, while he was the son of wealth. And for two years it looked as if her exchange of beauty for love and luxury was a satisfactory arrangement.

Pollock, an officer of the Atlantic Can Company of New York, was of a different faith from the girl he married. But that was only one of the differences that rose to make their marriage unsuccessful. Mrs. Pollock declared that his parents insisted upon him leaving her. At any rate she said that he said he was tired of her and accordingly brought annulment proceedings—and that was that.

And although she had the inconvenience of going to court every day to defend the suit against her, Miss Dorothy Knapp came through happily after all, for Miss Ann Hyatt, who maintained that failing to win the contest prevented her making a contract for \$2000 per week for 50 weeks in vaudeville, was adjudged without grounds for divorce. Miss Hyatt once conducted a private gymnasium and physical culture school for sanitarium patients at Battle Creek, Mich. She stated that Miss Knapp had won the contest through a plot, and that her own figure, measure for measure, is more classic than that of the winner's.

Corliss Palmer, Titian-Haired Southern Girl, Who Won First Prize in a Beauty Contest and Then Won from His Wife Eugene Brewster, Who Had Directed the Beauty Contest.

By Winifred Van Duzer

THE Fatal Gift of Beauty is more than a poetical phrase. Beauty is indeed fatal, as anyone who remembers the Trojan war—and the lack of tact on the part of youthful Paris and Helen—will agree.

Besides, consider the trouble and tribulation that Destiny has dealt out with one hand, while conferring the "Beauty Prize," whatever and wherever it happened to be, upon the loveliest ladies of this America! Has a single pulchritudinous one of them up to the present moment come through the many beauty contests that have swept the United States without sorrow and hardship?

Well, if they have, they were mere beautylets and not the shining stars of the famous shows. Records prove the course of these latter to have been a rocky one, beset with furious storms and disagreeable endings.

First among the troubled exponents of comeliness, is the lovely Corliss Palmer, once cigar-counter attendant at Macon, Ga., later the talk of New York, as the important corner in the squared triangle of Eugene Valentine Brewster, magazine publisher, and his former wives. Winner of a beauty contest held by the Brewster publications over an entry list of 50,000, little Miss Palmer has been under informal investigation in Macon by federal agents who wished information about the relationship between her and Brewster upon their visit to the southern city.

Too Many Poets and—A Blonde

Second, there is Helen Harris, who won a beauty contest in Detroit and later was supplanted in the affection of her husband by Shakespeare, Poe, Longfellow and—she says—a blonde.

Then there is Miss Hazel Keener, who recently won \$1000 when she was chosen as fairest daughter of Iowa, and who, since, has been so annoyed by suitors for her hand that she has been forced to prepare a "Don't Park Here" sign and display it prominently, wherever she may be.

Delightable 16-year-old Ida May Haskins, recently adjudged the most beautiful girl in Missouri, was arrested after she had left home informally, together with a business man of Independence, Mo., and later she swore out a warrant for his arrest on charge of violating the Mann act.

Kay Laurell, famous as the most beautiful chorus girl in the history of the stage, was rushed into financial stress when a stock company she had helped to organize went broke after eight weeks' rehearsals in Yonkers.

Miss Alison Frances McBain, selected by Coles Phillips, the artist, in the spring of 1921 as the "most beautiful debutante" at the New York University Club's concert in town hall, was obliged to undergo the humiliation of a breach of promise suit brought in the sum of \$50,000 against her husband, John L. Feeny, noted New York

Hazel Keener, Iowa's \$1000 Beauty Prize Winner, Who Had to Put Out a Sign to Keep Aloof Would-Be Husbands, Lovers and Cranks.

TRI-STATE FAIR ASSOCIATION EFFECTS ORGANIZATION; LET CONTRACT FOR NEW GRANDSTAND

May Open Track
About June 15

IRONTON, O., Jan. 12.—The Tri State Fair and Racing Association today let the contract for the construction of the grandstand at the new plant near Russell to the Pan-American Bridge Company of New Castle, Indiana. It is to be completed by May 1st. The contract for fencing the plant was let to the Cyclone Fence Company of Cleveland, Ohio, and it is to be erected immediately.

LExINGTON, Ky., Jan. 12.—The annual meeting of the stockholders of the Tri-State Fair and Racing Association, which is building the new Eastern Kentucky plant near Greenville, was held here yesterday. Messrs. Ben Williamson, of Ashland, Charles H. Berryman, John S. Barbee, Thos. H. Cronwell, J. O. Keene, R. D. Northcutt, all of Lexington, and Dr. Andrew Clark, of Ironton, Ohio, were elected directors. The directors met immediately after the stockholders meeting and re-elected officers as follows: Charles H. Berryman, president; Dr. A. C. Lowry, vice president; J. O. Keene, general manager; John S. Barbee, treasurer, and Thos. H. Cronwell, secretary and assistant treasurer.

General Manager Keene reported progress with other phases of construction and stated after the meeting that the plant most assuredly will be ready for opening before June 15th and announced it to be his intention to ask the State Racing Commission for racing dates following the close of the spring meeting at Latonia.

"It is our purpose," said he, "to have eventually a recreation place second to none in the country, and the people of the Tri-State section of Kentucky, Ohio and West Virginia already have assured us of their appreciation and cooperation in the most substantial way. They are liberally buying our stock and telling us that they can hardly wait until we can get the plant completed, so eager are they for the sport that we will bring to them. Heretofore they have had to travel far for such recreation, and there are many thousands of them who, of course, were not in a position to see much racing."

Boxer Dies

COLUMBUS, Jan. 12.—Lord "Patsy" White, 22, middleweight boxer, son of J. H. White, director of swimming at the University of Chicago, died in a local hospital last night of injuries received in a bout here last Monday night. He suffered concussion of the brain, according to attending physicians, the result of his head striking the floor when he was knocked down by Grant "Kid" Clark, of Columbus. He never regained consciousness.

County Coroner J. A. Murphy announced tonight he would investigate circumstances of the case. White's parents were at his bedside when he died.

Wad of Gum Is
Collins' Hobby

Eddie Collins has a peculiar superstition about hitting.

In the field Collins chews gum. When he goes to bat, he removes the gum and places it on the button on top of his cap.

He permits the gum to remain there until he goes back to the field, provided he hits the ball before getting two strikes on him.

The moment the pitcher gets two strikes, Collins removes the gum from the button and starts chewing it.

"It's just a habit, not a superstition," says Collins in explaining the habit, but ball players know different.

However, the wad of chewing gum is an essential feature of Collins' makeup. He would no sooner think of starting a ball game without a wad of gum in his mouth than playing the infield bare-handed.

NEW YORK, Jan. 12.—Promoter Tex Rickard today announced plans for several light-weight bouts during the indoor season which will bring into action Harry Greb, of Pittsburgh, the champion; Gene Tunney, of New York, former title holder, and Tom Gibbons, of St. Paul.

The first contest probably between Gibbons and Tunney may take place about the middle of February.

Record Baseball Slugfest In The
Majors Credited To 1922

WHAT was the most remarkable game of 1922 from purely the standpoint of slugfests?

In a season featured by batting, the game between Chicago and Philadelphia, staged at Chicago on August 25, stands out as the slugfest of the year.

Chicago beat Philadelphia by the score of 26 to 23. The winners made 25 hits and the losers 20. In addition to being hit hard, all the pitchers were wild, issuing 21 bases on balls.

In the second inning Chicago scored 10 runs, in the fourth inning 14 crossed the plate. Philadelphia made eight runs in the eighth session and six in the ninth.

In the fourth inning Outfielder Callaghan equaled a world's record by facing a pitcher three times in one inning. He made two hits and struck out on his 9th appearance.

The total runs of the two teams, 49, is the biggest mark ever registered in the majors, the previous record being 43.

Scouts To Have Basketball League

Portsmouth Council, Boy Scouts of America, will open the 1923 Scout basketball season during the first week of February, with two leagues, one for junior and one for senior teams. All boys must be registered in their troop before they will be allowed to play.

Wilhelmette Hall will be used for all games and a complete schedule will be announced soon. It is expected that every troop will be represented with one team in each league. At the close of the season the two winning quintets will be presented with handsome troop pennants.

To Play New Boston Hi

The Ironton High School Tigers will journey to New Boston Saturday evening, where they will meet the boys team of that place. It is to be remembered that the Tigers defeated the New Bostoners earlier in the season, and the Scioto County lads will be out for revenge. The Tigers will make the trip, minus the services of Capt. Blicke, star forward, who is reported to be ill at his home. Blicke will likely be out of the Ironton line-up this week, and his position will be hard to fill as Coach Davies has no man available for the gap. Blicke will likely be in shape to make the trip with the Tigers over to South Webster next Wednesday evening.—Irontonian.

Umpire Nallin

DICK NALLIN, one of the best umpires in the major leagues, likes hunting as a sport next to the national pastime.

Such being the case, it is only natural that as a side issue in his baseball interests, Nallin should boast one of the finest kennels of pedigreed bird dogs in the country.

During the summer months Nallin has his kennels at Frederick, Md., while in the winter he ships a number of his best dogs south for the field trials.

During the past year Nallin has sold a score of classy bird dogs for fancy prices. It is said that his revenue from his kennels is in keeping with his salary as a major league umpire.

Many of Nallin's best dogs have been prize winners all over the country. With Dick there are just two things, baseball and dogs. He is always discussing one or the other.

Oaks To Get Chance

(Columbus Dispatch)

It has been announced by George Moore that he has signed Panama Joe Gans and Battling Oaks to appear in one of the bouts of his show which is to occur on the night of Jan. 22. This is a bit of important news to Columbus boxing fans for it means an opportunity for Oaks which may mean the shaping of his entire career.

Possessed of unusual ability, Oaks has pursued a fold-over path for several years. On a number of occasions he has been on the verge of stepping higher, but usually has failed because of inability of promoters to secure classy opponents or because of unwillingness of men of his own color, owning superior records, to meet him on even terms. In Gans he will be facing a ringman of consummate skill and one who owns national prominence.

Minor League May Declare
War On Major Organizations

CHICAGO, Jan. 12.—War clouds gathered over the camps of the minor leagues, threatened today to crystallize into immediate action on the part of presidents against the major leagues, with the first drive centered in Chicago.

The trouble began when major leagues announced a plan to retain draft powers on players turned out in alleged violation of the major-minor "assignment of players" agreement.

An increase in the optional player limit from eight to fifteen caused a storm of protest from the minor league presidents. The attempt to include in the major-minor agreement, with the new interpretation put upon it by the majors, five additional leagues not subject to its rulings only added to the storm.

K. M. Landis, commissioner of baseball, affirmed the right of the majors to enforce his new plan of action, asserting he believed the minor league presidents had a right to "protect the player in his right of advancement."

Then the minor league presidents chorused their objections. William McCarthy of the Pacific Coast League said his organization would not independently should the majors violate the major-minor agreement covering draft players.

With all the anti-draft group of the minors—the American Association, International, Pacific, Western and Three I leagues—presenting a solid front against the majors, it appeared probable that business relations between the two groups might be severed unless a common ground of understanding was reached.

Pickings From Puck

(Ironton Register)

Poor old Portsmouth is still yelping as though no one on earth had a right to defeat its teams. Portsmouth should confine its athletic endeavors to Scioto county and maybe they could get away without a defeat but when they roam from home defeat is inevitable.

Portsmouth wonders why its team can't defeat the diminutive Ironton High athletic teams. There must be some reason. There is. The locals have the edge in spirit and in fight. They certainly give a lot of weight and strength.

Coach Davies is going to enter his Tiger team in the Cincinnati tournament to be held in March. More power to him and them.

Championship Game

One of the greatest basketball contests ever staged in Olway is scheduled for tonight when the South Webster High School five clashes with the Olway hi quintet in a game that will have considerable bearing on the viliage high school championship in Scioto county.

Bowling Matches

Tomorrow night on the Selby bowling alleys two special matches will be rolled.

Jimmy Frazier and Paul Bauer will be seen in the first match starting at seven o'clock. Bauer recently won the factory championship from Joe Bruno and Frazier will attempt to wrest the laurels from Bauer.

The second match will be between teams headed by E. Fisher and Kelly Conley. Fisher will have on his team Marple, Davidson, Revare and Bruno, while Conley will lineup with Mize, Johnson, Shepherd and another player to be selected.

Double Header

A double header basketball contest will be staged in Glenwood high school gym tonight at New Boston, when the quintets representing the boys and girls of Wheelersburg high school meet the New Boston hi teams. The contest between the girls starts at 7:30 o'clock.

Good Luck, Boys

The Portsmouth high school boys basketball five goes to Ashland tonight to meet the Tom Cat quintet of that high school. This will be the first time the teams have met this season. Ashland plays a return game here February 16. P. H. S. plays at home next Tuesday night with Sciotoville as the opposing five.

When the Ironton high school girls five mixes it up with the P. H. S. girls on the local gym floor this evening the locals will have the advantage of playing in their own gym while the visitors will have the advantage of playing with six on a side instead of five. Ironton girls have been playing this way all season and it has given them advantage over most of the other teams who play boy's rules. The Ashland girls have always played with the modified rules using five players and when they visited Ironton recently and had to use six players it broke up their team work and caused them to go down in defeat. P. H. S. has been practicing with six players this week and hope to be more than ready for that kind of play when they meet the I. H. S. girls tonight. This will be the first time in several seasons that twelve players have taken part in a court game at the same time on the local floor. The game begins at eight o'clock and the admission remains at twenty-five cents.

FORECASTING EARTHQUAKES

PROFESSOR BAILY WILLIS, of Leand Stanford University, who has gone to Chile to study the effects of the recent earthquake, hopes through his studies to devise a plan whereby the disastrous consequences of such cataclysms can be avoided. His expectation is not so unwarranted as might be supposed. A great deal has been learned about earthquakes lately, and Dr. Willis has been well to the fore among the investigators. It was he who mapped, through photographs taken from an airplane, the celebrated San Andreas fault line on which the San Francisco earthquake of 1906 occurred.

There is not the slightest possibility, of course, that mankind can do anything whatever to prevent the occurrence of these convulsions. But there is considerable reason for believing, in view of recent discoveries, that the time may not be far distant when it will be possible to foretell more or less accurately where and when earthquakes are likely.

The fault lines in the earth's crust—that is, the rifts or weak seams whose collapse is responsible for seismic disturbances—are being determined in California, and in course of time probably will be indicated on maps of all regions subject to earthquakes. Even when the faults are on parts of the earth's surface, covered by water they likely will be shown, as the bottom of the sea is also being mapped. The Federal government at the present time has two crews at work off the coast of California, mapping the ocean bed through a new device by which sound waves are reflected from the bottom. In this way they are trying to locate lines from which seismic waves may pass.

But the most important factor of all in the situation is the discovery by Dr. Leo A. Cotton, of the department of geology of the University of New Zealand, of the cause of earthquakes. He has put forth the theory—and it is generally accepted as correct by geologists—that seismic disturbances are produced by the strain placed on the weak seams in the earth's crust—the faults in the lithosphere, as the geologists would call it—by the pulling power of the sun and the moon.

With this information scientists may be in position to warn the people when to be on guard. If there is advance knowledge of the coming of an earthquake there can be saving of lives, if not of the property, that otherwise would be destroyed.

HANDICAPS

DEAF persons have a compensating keenness of eye, and most of them are accomplished lip readers. One movie audience was startled by a deaf man who broke into a great guffaw at the most tragic moment of an exciting film. He had lip-read the remark of the star who played the hero role, and the remark was not at all in keeping with the scene.

Now announcement comes from Paris that deaf persons are to be shown the films of the Ski-Carpenter fight, so that if possible they may detect just what managers, referee, fighters and others were saying at the battling moments. Their evidence will be used in court, in deciding the appeal of the Sengalese for restitution as champion, and in fact the whole case seems likely to hinge upon it.

Handicaps are only relative things. Blindness produced a Milton, the loss of legs a Henry, consumption a Stevenson, eye-strain a Nietzsche, Edison, creator of the phonograph, is partly deaf. The majority of men are color-blind. Each being has some minor flaw in his makeup.

But no individual should let physical things stop him. It makes human beings better fighters if they are not perfect physical specimens. Such can say with the hopeless cripple, Henry: "In the full clutch of circumstance, I have not winced nor cried aloud." Handicaps often are spurs to achievement.

New York-Day-By-Day

BY O. O. MCINTYRE

NEW YORK, Jan. 12.—Thoughts while strolling around New York: Eight o'clock and Broadway not awakened. Odor of steaming coffee. Pungent Provocative. Gassy pastry shop windows. Thousands plodding to ambitionless tasks. Fruit stores offering avocado pears.

August Thomas is one early. Another one of those "charming" comedians at the Empire. A street gamin yanks an old man's beard. If that's funny, so is the New Republic. The gallery line already formed at the opera. Pious popinjays in frock coats. Or maybe Moor-walkers.

There's Finley Peter Dunne. Flamboyant red hats with gloves to match. Ring jing is being revived. The patter of ponies going to the Hippodrome. Dashing schools are teaching the minuet. Derelicts still hanging around the old Herald building.

Dollar a day hotels. Thick with zillions. Upstairs chop suers. Wonder if that woman knows her curtains are up? Aftermath of Christmas. A headless Teddy bear in an ash can. Art Young, the artist. Carries a black thorn cane. Pretty doggy, I'll say.

Tourists streaming from hotels to see the sights. Yap wagon barkers shout of the wonders. The best way to see the city is from the top of a bus. And his cheaper. There's a wow! A hurdy gurdy grinder in corduroy suit and high silk hat.

A row of language schools. I can't speak enough Yiddish to get around New York. Crystal gazing parlors. Sturdy women sitting in the doorways of pull-in clothing shops. Morries that reek with human sweat. But they all have pretty caged cashiers.

A district of factory lots. Army of penny lunch merchants. And queer little cafes—Kosher, Greek, Spanish and Turkish. Once there, a brooding gas house. Wonder if it has its tongue zang. Drays. Boxes. And sidewalks littered with yellow newspapers. All sorts of gambling games in the halls. The stroll ends.

In mid afternoon she sat erect and stately—like an empress—as her horse-drawn four wheeler rolled up Fifth Avenue. About her shoulders was drawn a Paisley shawl and over her head she held a tiny black parasol. It was a biting raw day and her wrinkled face was pinched with cold.

The old driver in his faded plum-colored suit of a decade ago could scarcely hold to the lines. It was an anachronistic note in a motor-mad age. She stopped at one of the old-time mercantile houses and went in. The carriage starter told her that twice a year she made the shopping expedition from the bleak old home on the fringe of Washington Square. It is a house that once blazed with social activity—New York's creme de la creme. Then came the reverses. There are a dozen more such types in the fashionable old center near the square. To the new generation they are unknown. They cling to the old days, the old styles and the old high-born gentleness.

Frank Case, the hotel man, tells of a little fruit stand merchant in Forty-fourth street who has a boy open the shop at 5 o'clock each morning—polish the apples, and get things ready for the day. Several times the proprietor has arrived before the boy just to see if he was on the job. He was never able to detect him in tardiness. One morning, recently, however, the boy arrived at fifteen minutes after four. The proprietor was watching from across the street, rushed over, pounced upon the boy and yelled:

The End of a Perfect Day

By Tessa Webb

'Twas early in the evening. When I kissed him at the pier: The waves were dashing wildly. Like the kick in home-brew beer. The sun was sinking softly. O'er the oysters in their bed. And fish were dancing gayly. With jazz from foot to head.

We started down the valley. As the day was growing dark: The fire blew off the auto. And the trees peeled off their bark. The butterflies made butter. On that bright a blissful day. And little snowbirds twittered. As we passed along the way.

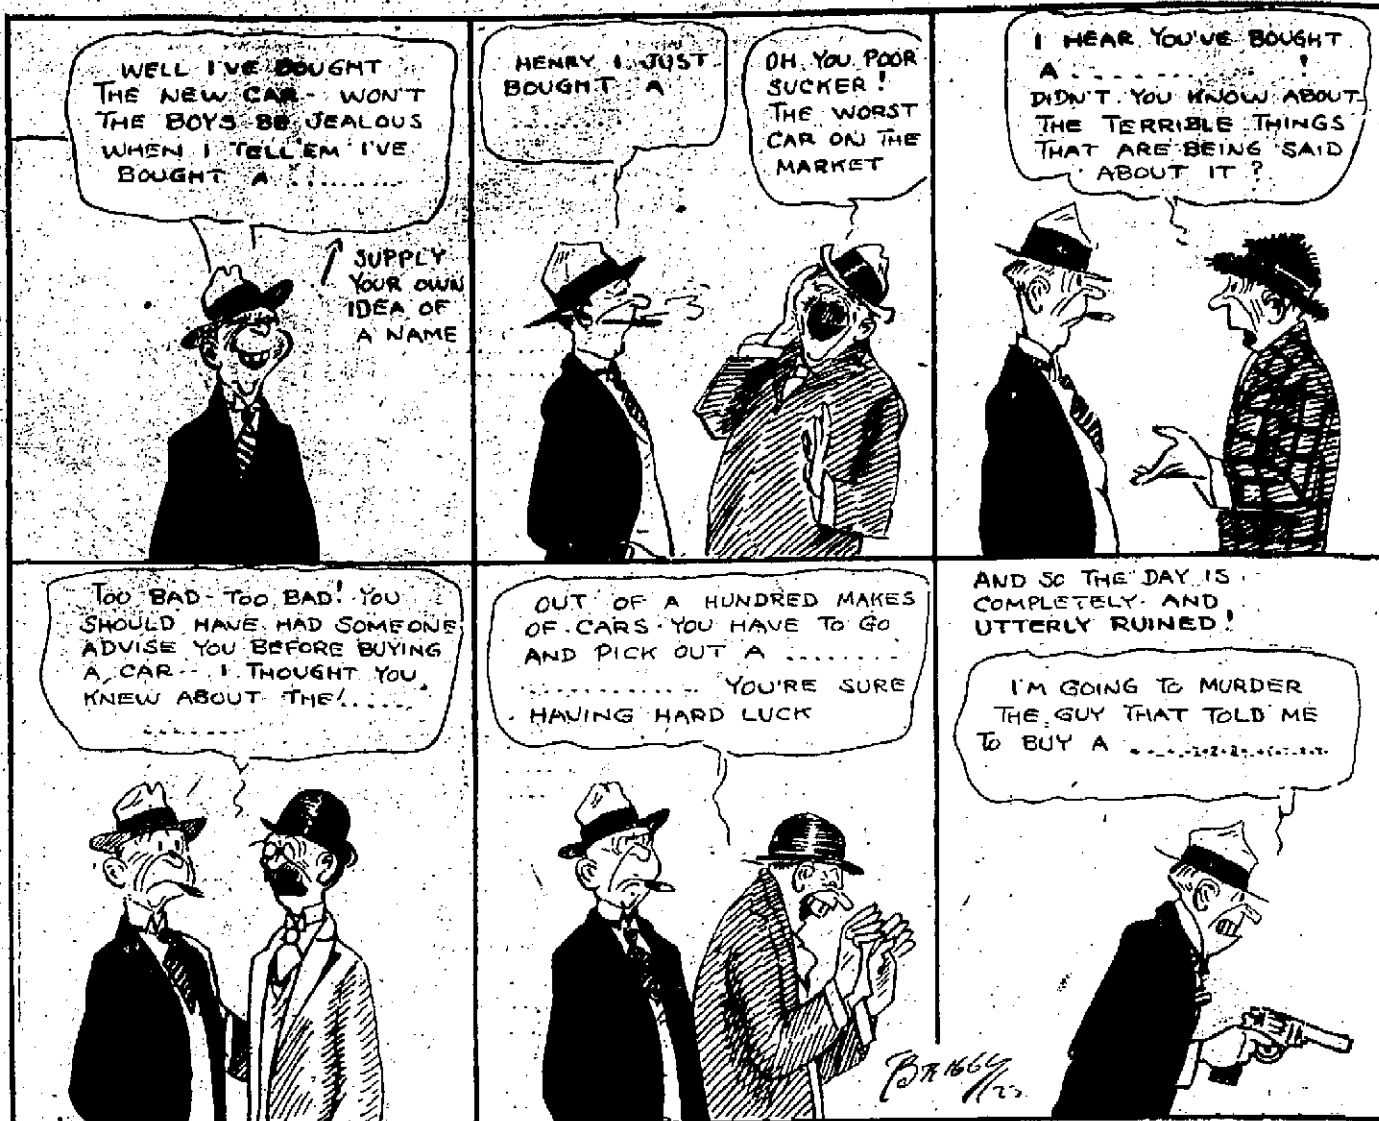

A creek was made by crickets. With some pebbles in its bed: The bull-frog made some bullets. And they shot me in the head. I sighed and tumbled over. And while in his arms I lay, I faintly heard him whisper: "This ended a perfect day."

You Did No Wrong
The hospital has him. I hope he dies. I look both his legs and blackened his eyes. For he told me this story. Was it wrong what I did?

A girl from the Follies gave him a bid to attend a warm party at a warm little flat. There was liquor and music and nice things like that. The divans were comfy, the lights were just right, if you wanted to light them—if not, well, all right. Now this woman it seems, saw best in the dark and although she could dance, she liked better to park. The remainder he whispered quite close to my ear. (Smith girls, keep on reading, you've nothing to fear.) His eyes were aglow as he said to me, "Mister, if I'd played my cards right, I think I could have kissed her."—Wasp.

HOW TO START THE DAY WRONG — BY BRIGGS

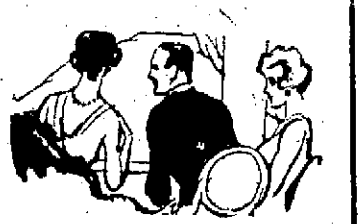

A Real Office

Brother Blank is one of the greatest costables our town has ever known. Several weeks ago a noted criminal escaped from the Chicago police and Blank received a notice about it. The notice contained pictures of the celebrated crook, taken in six different positions. Two days after receiving the pictures Blank wired the chief of police of Chicago that he had five of the men in jail, and was after the other one.

"Is her leg broke?"
"Naw, we found \$1.49 in her sock."

GOOD MANNERS

AT the theatre or opera, good form decreases evening dress for those in the boxes, although less elaborate than for a ball or party.

In the orchestra, full or semi-evening attire is appropriate, but in cheaper seats plain street dress should be worn, anything more elaborate being bad form.

For the matinee, a simple street dress of dark material is suitable, except that, in summer, one may wear dainty fabrics of light color.

Sounds!

The other day I saw a Smash-up on Sheridan Road. And the Eternal Triangle was there—The Cop, the Joy-Riders, and The Smashed. The Cop said: To the Cur to blame: "I don't stick your arm out when 'turning corners'!" And the Guy replied: "I've only got two arms."

A College Course

Place the prospect in a shady nook and sprinkle a few beams of moonlight. Draw your arm slowly around her waist; be sure you remember her right name and proceed as follows: "Dearest one, though we have actually met for but a little while I feel as if I have known you always; as if we were lovers when yet the rocks were molten. Your exquisite soul has reached out and joined with mine in the brightness of the ethereal heaven until I can think of nothing but the beauty of your smile. (Now try to kiss her. If you succeed sit in

recluse, uttering a few deep sighs. If you fail, proceed with this):

"Oh, dearest Caroline, your tenderness, the exquisite glow of your eyes, the absolute beauty of your soul, all have overawed me. My love for you shall live forever." (Repeat the last sentence for effect.)

Follow this line up closely, filling in some of the details, and you are sure to land the order. They all fall sooner or later.—Punch Bowl.

Second Grade (with a relieved expression)—"Ah! That explains it!"

First Cake-Eater—"Explains what?"

Second Cow-Boy—"Nothing—only I thought it was my line that was giving out."—Mink.
